The Wellsboro Gazette.

VOL. XXXII. WELLSBORO, TIOGA COUNTY, PA., THURSDAY, MARCH 15, 1906 NO. 28.

EW BOROUGH COUNCIL

uch Business of Interest Transacted at the First Regular Meeting.

GHT CONTRACT HELD OVER

ny Petitions for New Arc Lights Brought Up—A Deficit of Over $2,000 in the Borough Treasury — Standing Committees Appointed—Other Business.

The first regular meeting of the new rough Council last Monday evening s attended by President Spencer d all the members.

Rev. A. C. Shaw, of the Presbyterian church, was present and stated t a short time since a petition had n presented asking for an arc light be placed at the corner near the arch, and wished to know what had en done in regard to the matter.

A communication was read from stmaster A. M. Roy, calling the atn of the Council to the fact than an r light was needed at the corner of in and Crafton streets. He said t it was the most important corin the town for the reason that postoffice was located there, and t as soon as the free mail delivery vice is inaugurated it will become nore busy place than ever before account of people congregating l waiting for the evening mail.

Messrs. Joseph Owlett and Walter gate referred to the petitions for lights which had been presented to Council some time ago. Mr. Owasked that a light be located near old Sherwood property on Tioga et, and Mr. Wingate made a similar uest for one near the Spencer grist l.

resident Spencer stated in answer hese petitions that nothing defe could be done in the matter unhe new contract with the electric npany was made.

ills to the amount of $145.90, inling a bill of $113.65 for tile for the er on Sherwood street, were read audited.

communication from Geo. M. lding was read, in which he stated he was prepared to furnish the ough with Portland cement in carlots at the rate of $1.68 per barf taken before April 1st.

fter some discussion President ncer appointed Messrs. Bodine, hers and VanHorn a committee to stigate with power to act.

he bond of W. D. VanHorn, as ough Treasurer, in the sum of 000, was accepted and approved.

Z. Swan was present and asked the docking on the creek near Spencer mill receive attention. ommittee was appointed to look the matter.

letter was read by the Clerk from Rochester Rubber Company, askpermission to send a representawith samples of fire hose for the ncil's inspection.

erk Shattuck made the following rt of the finances of the borough:

raft, Borough Fund	$1,238.16
raft, Sinking Fund	158.47
rts, Gardner & Co.'s bill	113 65
ose	210.00
wood street sewer	304.06
ith sewer	36.40
otal	$2,060.74

e Clerk also stated that owing to deficit in the borough treasury e above amount, the debt having contracted last year to be paid of the taxes this year, that the ate would necessarily have to be d at least two mills to cover the it, as an increase of one mill on present valuation would raise only 0.

e matter of the electric light con was taken up. President Spentated that he had been authorby the Council at a private meet called to discuss the subject of ght contract, that if the company willing to make a five-year con at the rate of $72 per lamp per the approximate rate for the ear contract, and eliminate the e regarding the inspection, that Council was ready to close the act.

K. Young, of the Electric Com, said that the three proposimade at the last meeting had en gone over and refused to ac the terms proposed by Mr. Spen-

lengthy discussion followed, in the clause of the inspection of poles of the company figured inently, Mr. Young holding that ause was a part of the consideron which the price was based, aid that if the company was to be for inspection it would add the nt charged to the price already l.

y suggestions were made in reo this fact by the members of ouncil. Mr. Young stated that ompany was willing to renew the ontract, but would not consider roposition to renew it for one

Young was asked how many of poles the company had, but not at present give a definite r, and after some further talk the Council agreed to hold a special meeting next Monday evening, giving Mr. Young in the meantime an opportunity to ascertain the number of miles of poles owned by the company.

The President then appointed the following Standing Committees for the ensuing year:

Fire Department—Dartt, Bodine and Mathers.

Estimates and Expenses—Smith, VanHorn and Bodine.

Electric Light—Mathers, Dartt and Smith.

Streets and Sidewalks—Councilmen of the respective wards.

Sewers and Bridges—Councilmen of the respective wards.

LOOKS LIKE SURE THING,

Work on the New Railroad to Begin Near Canton This Week.

The Canton *Sentinel* says: "I. N. Beardslee returned Saturday night after a week's work securing deeds to right of way along the route. He reports that deeds have been secured from twenty-one parties and contracts have been closed with a number of other parties.

"In reply to a question as to when the actual work of construction would be started he said that he had information to the effect that the construction outfit had been shipped to Greenwood last week, and that the contraetor had arrived. He was sanguine that the actual work of constructing the road would be begun this week."

Last Monday afternoon the Pittsburg, Binghamton and Eastern Railroad Company held a meeting in Towanda. They adopted the location of the line as surveyed by J. W. Burke. The route will start at Powell and connect a few rods this side with the Susquehanna and New York. They positively state that construction will be commenced this month—and it now does really look like it—as much money has recently been paid out on the construction. This road has been a long time starting but if it goes through it will be of great advantage, not only to this town, but to the county.—*Bradford Argus.*

The Towanda *Journal* says: "Representatives of the company are busy securing the necessary rights of way, and when it becomes necessary condemnation proceedings will be started wherever satisfactory arrangements cannot be made with property owners. The railroad, from all present indications, is a sure go."

NURSERYMEN AND AGENTS.

State Officals Directing Attention to the New Law.

State Nursery Inspector Engle is sending broadcast circulars prescribing the legal limitation for the sale of nursery stock. Each circular is signed by Secretary of Agriculture Critchfield and Economic Zoologist Surface, either of whom can give further information on the subject.

The letter calls attention to the act approved March 31, 1905, which requires that all tree agents and dealers in the State must file in the Department of Agriculture a certificate that he will buy or receive for re-sale only such stock as comes from sources approved by the department.

Properly accredited agents, canvassers and salesmen of nurseries in or out of the State which hold bona fide inspection certificates are not included in this order.

Dealers who buy stock at wholesale to be retailed must have a dealers' certificate, which will be furnished free by the Department of Agriculture, under certain conditions.

The law is designed, and the present action is expected, to aid materially in the fight against the San Jose scale, black knot, yellows, wolly aphis and crown gall, which is being waged by the Division of Zoology. The policy is to exercise all preventive measures so that the work in the field against the pests will be materially lessened.

Jackson and Lawrence.

SOMERS LANE, March 14.—Mr. and Mrs. J. K. Friends will move to Elmira April 1st and will occupy premises recently purchased in that city. The tenants on the Jackson farm will be Mr. and Mrs. Peterson, the former being a niece of Mr. Friends.

Mrs. G. A. Collum visited her daughter and other friends in Elmira over Sunday.

Mr. and Mrs. Buck and little daughter, Castella, are visiting at the home of Charles Reep.

Miss Dollie Wilson has been visiting her parents, Mr. and Mrs. John Wilson, of Jackson, for a few days. Miss Wilson has a fine position in Rochester, N. Y. A party in her honor was given by her parents last Friday evening and was a great pleasure to all who attended. Miss Wilson returned to Rochester on Saturday.

A surprise party at the home of S. R. Friends, Jr., on Monday evening was a very enjoyable affair.

A church social at the home of Ernest Corwin on Thursday evening netted about $6.00

EW BOARD OF TRADE

Meeting Held to Perfect Arrangements for Permanent Organization.

BUSINESS MEN INTERESTED

Ball Started Rolling for the Booming of Wellsboro—Many Good and Favorable Arguments for Advancing the Project—Another Meeting To-Morrow Evening.

About thirty of Wellsboro's representative business men met in the Bache Hose parlors last Friday evening for the purpose of forming a Board of Trade. Anton Hardt was chosen temporary Chairman and Herbert D. Shove, Secretary.

One of our crying needs is another railroad and the chairman, being a railroad man of long experience, advised the meeting as to how we should proceed to induce the Buffalo & Susquehanna road to continue its line to Wellsboro by the Heise run route. Mr. Hardt's remarks were very interesting and instructive.

The chairman then called for expressions from the gentlemen present and in response were heard several ringing arguments in favor of the Board of Trade. All were satisfied that the Board is much needed and each pledged his support.

Rev. F. W. Reynolds spoke very favorably of the project and evidenced by his remarks that he was thoroughly familiar with the needs of Wellsboro. He put forward the argument that our natural facilities would be a great inducement to enterprises to locate here, but in addition to that we must give them other and more material encouragement. He closed with this appeal: "Let us make Wellsboro what God has intended and what Nature has endowed it to be—the real queen town of Northern Pennsylvania."

The chairman appointed the following committee to perfect a scheme of organization and to draft a code of by-laws: H. L. Blatchley, Herbert D. Shove, Harold G. Roy and Israel Cohen.

The meeting then adjourned until to-morrow evening at the same time and place.

While this, the first meeting, was undoubtedly a success, it is hoped that to-morrow evening will see a still larger gathering and that the project which has already a good start will receive such hearty and substantial support from the business men and capitalists that Wellsboro's Board of Trade will be a reality and not a supposition.

This scheme has been prosecuted to a successful issue in many towns smaller than Wellsboro, and there is no reason why we, with our sharp and competent business men, can not have an organization that will boom Wellsboro into a hustling manufacturing town.

Let every business man and citizen who has Wellsboro's interests at heart turn out for the coming meeting and, by his presence, at least, show himself to be on the side of the progressive and up-to-date.

THUMPTOWN TOPICS.

Many Changes of Farm Tenants—Other Changes—Considerable Sickness.

THUMPTOWN, March 14.—Mrs. Clara Bartle has returned home after a two months' visit with her daughter, Mrs. Verne Moore, of Philadelphia.

Robert Morrow, of Wellsboro, has moved to the farm of his father-in-law, Russell Kennedy, which he will work this year.

William Wetherbee will soon move from the Simeon Bacon farm to the farm of Perley Phelps. Mrs. Phelps expects to start for Michigan about the first of April to join her husband, who went there about two months ago.

Charles Krause has moved to the Clarence Gorrie farm, where he has employment for the year.

Sam Kelsey will work the Simeon Bacon farm this season.

Jay Munson will work the John Geroy farm this year.

Mrs. Mina Campbell has moved into the house with her father, Robert Wilson.

Ray Knowlton has moved to the S. L. Campbell fruit farm, which he recently purchased.

Mathew Hazelton supplied the pulpit of the Methodist church last Sunday morning in the absence of Rev. E. S. Wilcox.

L. B. Mudge had the misfortune to lose a valuable cow one day last week.

Verne Sherman is ill with lung trouble.

Grant Phelps is out again after being confined to the house several days with lung trouble.

Jay E. Christian is slowly recovering from a severe attack of pneumonia.

Mrs. Chloe Dexter is seriously ill with Bright's disease.

—Frederick J. Sanbacher, aged 94, who died a few days ago, was one of the oldest residents of Elk township.

A TEMPEST IN A TEAPOT.

County Auditors Take the Commissioners to Task About Poorhouse Account.

The Board of County Auditors met in this borough on Monday and gave out a statement for publication regarding some clerical changes made in the annual financial statement of the County Commissioners about the poorhouse account. A full and complete denial of the charges of the Auditors, together with an explanation which prompted the same and also the source from which they emanated, will be found in another column. The criticisms of the Auditors are printed below for what they are worth:

The County Auditors are very much surprised to see the financial statement of Tioga county laid before the people in a form which does not convey the information they designed to give the tax-payers. The figures are not printed as they were itemized by the Auditors and have been changed by some one since the Auditors finished their duties with the evident purpose of misleading or at least not conveying the full information contemplated by the publication of a financial statement.

Under the heading of "Poorhouse Expenses" the Auditors itemized the "Farm Expenses" as follows:

Farm expenses	$308.37
Chop feed bought for stock	1,084.79
Hay and straw	239.59
Total	$1,632.75

These items in the published statement are all bunched at the total of $1,632.75 for "Farm Expenses." Why were these figures bunched instead of itemized, as the Auditors demanded, and as the Commissioners agreed to do? Why were they not given to the taxpayers, who are certainly entitled to see them and to know what has been done with their money? Was there a disposition to deceive the people of Tioga county? Did they not dare to show the true figures for the Poorhouse account in items? Why not? What is there to hide? It is true the feed bills are enormous and no doubt would look bad in print, and some practical farmers and others might question them. By whose authority were these figures changed? We leave these questions with the taxpayers.

The item for chop feed represents 45 tons of feed at a total cost of $1,084.79; the hay and straw bought for the county farm was $239.59, making a total of $1,324.39. And all this is in addition to the production of the farm, and for the purpose of maintaining 35 head of cattle, six horses and a dozen hogs. With a farm of 317 acres would it not be suicidal for any farmer to be obliged to buy this amount of feed and hay? Is it graft or mismanagement? The farmers and taxpayers may wrestle with the facts and make up their minds about that after due consideration.

The expenses of running the Poorhouse for the three years past, 1903-4-5, are $15,000 greater than for the three years preceding. Allowing $5,000, for extraordinary expenses and improvements for the last three years the cost is still $10,000 in excess of the three preceding years. During all this time the number of inmates has not materially increased. The entire expense for the Poorhouse for 1900 was $6,646.03; for the year 1905 it was $13,605.63, or more than double in six years.

FREEMAN H. SMITH,
M. L. ROCKWELL,
F. WATKINS,
County Auditors.

Death of John Boatman.

John Boatman, aged 58, a well-known resident of Delmar and a veteran of the Civil War, died at his home in that township last Friday morning at 5 o'clock after an illness of less than a week, of pneumonia. He was born in Delmar in 1847 and had spent most of his life in this locality. February 25, 1864, he enlisted in Company K, (Major Geo. W. Merrick, Captain,) 187th Regiment, and served until the close of the war. Since that time Mr. Boatman had been engaged in lumbering and farming. He was a good citizen and neighbor and was best liked by those who knew him best. He is survived by his wife.

The funeral was held at the late home of the deceased on Sunday afternoon, Rev. Wilcox officiating. Interment in the Stony Fork cemetery. Six old veterans acted as pallbearers, three of whom were comrades of the deceased.

Rural Free Delivery Decision.

The Postmaster General last Thursday reaffirmed his position with respect to rural free delivery carriers that they cannot be used as the medium for taking subscriptions for newspapers. At one time they were allowed to do so, but a recent act of Congress prohibited rural carriers from soliciting business or receiving orders of any kind for any person, firm or corporation or for carrying merchandise for hire during their hours of employment. According to an official statement given out, however, rural carriers are not prohibited from carrying, outside of the mails, unmailable matter, on the request and at the expense of patrons of their routes.

THE POMONA GRANGE

Resume of the Proceedings of the Regular Quarterly Meeting.

STATE OFFICERS PRESENT

Twenty-Eight County Granges Represented at the Meeting—Reports Show a Gain in Membership—Interesting Papers and Addresses—Resolutions Adopted.

By E. R. Mulford, Press Correspondent of Tioga County Pomona Grange, No. 30.

Once again we, the members of Tioga County Pomona Grange, No. 30, have been meeting for two days in regular quarterly session. The occasion has been one of pleasant surprises and happy reunion, as well as one of thought and action that will surely bear fruit in the days and years to come. To have two such men with us—Mortimer Whitehead, of New Jersey, and A. M. Cornell, our own State Lecturer—was a treat indeed. To listen to their words of happy greeting, their able explanation of the things only talked about within the gates of the Grange, and to counsel with them about the best way to bring about the better state of things we desire, was an opportunity that rarely comes our way. Some twenty years ago Mortimer Whitehead was telling the farmers of this county what a force they could become if they would unite on the Grange platform. Surely he knew what he was talking about, for to-day Tioga county has thirty-eight Granges united in Pomona, and a membership the largest of any county in the State.

Members representing twenty-eight of the county Granges were present last Thursday afternoon when Pomona Master E. B. Dorsett called the meeting to order. Opening exercises and singing followed, and then Overseer James E. Spencer made the address of welcome. It was brief, but contained some good suggestions and his closing words left a feeling of rest in the breasts of those timid ones who had been fearful of their standing on appearing at our threshold for the first time. The response by Mrs. L. H. Johnson, of Charleston Union Grange, contrasted pleasingly the farm life of to-day with that when we were boys and girls.

Secretary W. H. Whiting read the minutes and reports of deputies and committees followed.

The Finance Committee reviewed the business situation to the satisfaction of the members.

The Zoological Committee Chairman, E. R. Mulford, reported 600 packets of seed for experimental purposes, put up for the committee by Henry Field, seedsman, Shenandoah, Iowa, ready for distribution. The varieties include sweet peas, helianthus, turnip, radish, squash and beans. Prizes for articles on their growth will be announced at the June session and awarded in September.

Reports of Granges showed a gain in membership since last meeting.

The afternoon session closed with the announcement that the Tioga Grange Bank would open for business April 3d.

Visiting and supper occupied the time until the Fifth Degree session at 7 p. m. A class was instructed in this degree and after a brief business session the public were invited in to hear the addresses.

After singing by the choir State Lecturer Cornell spoke a few minutes about results of Grange work, and then Mortimer Whitehead, the father of rural mail delivery and the champion of the parcels post, was introduced.

For twenty-six years he has been preaching, voting and living Grange principles. North, South, East and West have been visited by him and the New Jersey fruit grower has proved to the people again and again that a man with a purpose, united with other men of faith, can move mountains of class prejudice, old ideas, railroad and steamboat influence, and even Standard Oil and express rates. Our space forbids a general review of this masterly address.

Friday morning H. Roybler read an interesting paper about denaturized alcohol, which was discussed by Brothers Whitehead, Cornell and Dorsett. The most important work of the day occupied the rest of the forenoon. This was the address of Brother Whitehead on "Symbolism of the Unwritten Work."

Friday afternoon Brother Dorsett received the thanks of Pomona Grange for a large picture of O. H. Kelley, the founder of the order, and Baby Hill, the infant son of State Master W. F. Hill.

The Committee on Resolutions reported, endorsing the following measures now before Congress: Hepburn rate bill, strengthening oleo and pure food laws, parcels post, free denaturized alcohol, good roads bill; also the action of the State Grange to compel corporate and personal property to pay proportionate taxes with real estate, and favoring permitting trolley or electric railroads to carry freight, express or mail. Approved abolition of passes by railroads, and asked for a maximum two cent passenger rate on all railroads.

The resolutions were signed by John Shaw, A. M. Cornell, B. S. Haven and W. W. Davis. They were unanimously adopted.

The Memorial Committee, Mrs. C. N. Austin, Mrs. Delos and D. C. Manley, reported resolutions on the death of Brothers A. J. Doan and Kizer.

A. M. Cornell spoke on deputies duties and after singing by Mrs. C. N. Austin the Grange closed to meet again in June.

Pomona Lecturer Martha Mitchell was congratulated for having arranged one of the best programs ever presented at Pomona, and it is plain that she thinks the best to be had is none too good for Tioga county.

FIRE AT LITTLE MARSH.

The Farm House of Fred Cooper Burned Together With Most of Its Contents.

LITTLE MARSH, March 14.—Last Saturday morning between 12 and one o'clock fire was discovered in the farm house on the Leach place, occupied by Fred Cooper. It was totally destroyed together with nearly all its contents. Mrs. M. C. Potter, of Keeneyville, who was visiting her daughter, Mrs. Cooper, was the first to discover the fire, being awakened by the stifling smoke. Mrs. Cooper who had been sick for some time, had to be carried to the nearest neighbor's home and also her little boy. This required considerable time and before help arrived the house and its contents were doomed. There was some insurance.

Amasa Clark, aged 73 years, an old soldier, died at his home in this place last week Monday. The funeral was held at the house on Wednesday, Rev. A. G. Coles, of Cameron, N. Y., officiating. Interment in the Cloos cemetery. Mr. Clark leaves one daughter and one son, his wife having died several years ago. He was a kind and jovial neighbor and well liked by all who knew him. He was a member of Company H, 45th Regiment.

Quarterly meeting will be held in the M. E. church on Thursday evening.

Mrs. Martha Rice is visiting her daughter in Wellsboro.

Mrs. R. H. Taylor, who lives about three miles west of this place, has been sick for several days with a severe attack of the grip.

Eugene Spencer is very low with heart trouble at the home of his mother, Mrs. Alex Wass. Dennis Cole, who has been very poorly for a long time, is also reported in a critical condition.

A lodge of Modern Woodmen was organized at Beachtown last Saturday evening with seven charter members.

Worthy Master A. B. Doane, accompanied by over twenty members of Excelsior Grange, visited Locey Creek Grange last Saturday evening and were served with an excellent supper. A literary and musical program was rendered and a very enjoyable time was had.

TIOGA'S REAL ESTATE.

Deeds Entered at the Register and Recorder's Office Since Last Report.

Following are brief abstracts of deeds filed in the Register and Recorder's office since our last report:

Clymer—Ella E. Brewster to Chas. S. Chamberlain, 20 acres; $600.

Delmar—Mary A. Packer to William Henry Gleason and wife, 50 acres; $320.

Deerfield—David Costley et al. to George H. Knox, 51 acres; $600.

Morris—George H. Gray and wife to John Frutiger, lot; $1,000.

Tioga twp.—Sophia G. Putnam and husband to Joel Giles, 88 acres; $500.

Wellsboro—F. E. Watrous and wife to Charlotte M. Johnson, lot; $1,600.

Mansfield—Angelica Sanders to Benjamin Jones, lot; $500.

Morris—Henry Guy to Henry Guy, Jr., 65 acres; $583.

Tioga—Philo Tuller to Jeanette Hakes, lot; $1,00.

Tioga twp.—Fannie E. Gaylord and husband to Charles A. Horton, 60 acres; $750.

Brookfield—H. C. Lewis and wife to E. A. Burt and John F. Stone, 77 acres; $100.

Union—Charles A. Vickery and wife to Palestine Langest, 140 acres; $75.

Mansfield—J. C. Horton and wife to Ella E. Baird, 3 lots; $50.

Mansfield—Ella E. Baird and husband to M. R. Mosher, 3 lots; $100.

Sucessful Revival Meetings.

CHATHAM VALLEY, March 14.—Rev. Preston Kennedy, of Binghamton, N. Y., and Mrs. Alice Snyder, of Elkland, have been holding a very successful series of revivals here the past four weeks. A baptism followed the service on Sunday afternoon.

Randolph Churchill is very sick with pneumonia.

Mrs. Mollie Erway is also very sick.

Eliza Taylor, of Farmington, is visiting friends here.

Lavern Hotelling, who has been sick for a long time, is better.

H. VanAlstine and family will move to Morton, N. Y., where he has a call to preach in the Free Baptist church.

GOOD STORY, IF TRUE

"Bill" Willard Gives a Highly Colored Version of His Western Career.

READS LIKE A DIME NOVEL

And if His Story Was True It Would Make the Fiction of the Wild West Look Like Thirty Cents—Married a Daughter of Indian Chief.

William F. Willard, a former resident of Wellsboro, late of Cape Nome, Alaska, arrived in town last week for a few days visit with relatives in this locality. This is Mr. Willard's second visit to Wellsboro within a few months. He left this place at the close of the Civil War, over 40 years ago, not 50 years ago, as stated in the report below.

Mr. Willard was a visitor in Williamsport a few days before coming to Wellsboro, and in speaking of him as "an interesting personage" the *News* of that city says that he is "worth millions of dollars amassed, according to his own statement, in the gold fields of the West and Alaska." His history in detail would form a most interesting biography, the principal points of which would cover practically every phase of western frontier life from the early fifties to a more recent date. The *News* says:

"Mr. Willard left Wellsboro in the year 1854, when 20 years of age. He journeyed from Pennsylvania to California, where he at once took up the work of prospecting for gold. His efforts to secure the precious metal panned out well, and to-day he is unable to estimate the amount to which his riches have grown."

In an interview with a reporter the *News* says Mr. Willard willingly recited some few facts in regard to his career since his departure for the wild west when a young man of great ambitions and wonderful constitution. The story of Mr. Willard, being true, would make the dime fiction of the west pale, but only a brief outline of his story can be given.

From California the prospector, now fully hardened to frontier life, went to Kansas, where he lived for some years. His roving disposition, however, led him into every State in the west, then to Mexico, and lastly to Alaska. He crossed the plains several times. He has the distinction of being the husband of a famous Indian chief's daughter.

During his natural life Mr. Willard has been an Indian fighter and "bad man tamer," and the experience of himself and his companions in this occupation are of the most thrilling nature. In Kansas he was a participant in a number of fights with the famous outlaw band composed of Jesse and Frank James, Cole and Bob Younger and other famous desperados who constantly hampered the frontier towns. In Minnesota he was a member of the posse which effected the capture of the Younger brothers.

His most interesting bad man hunting expeditions, however, took place at and near Abelin, Kan., where in company with the historical "Wild Bill," mayor of the town, he was engaged on the trail of a band of outlaws composed of both reds and whites headed by William Carter. In the final roundup the band had been trailed to Deadwood, where a fierce fight occurred. Willard received two arrow wounds, one in each leg below the knees, the scars from each which he still exhibits. One of his limbs is four inches smaller in the calf than the other on account of the wound. In other parts of his body, one on his left wrist, he carries altogether five scars from the weapons of the red men.

Another incident in his unusual career was his experience in the earthquake at Bartso, Cal., in 1867. The effect of the shock was apparent for miles in either direction from the town. Mr. Willard's wife is the daughter of the Comanche chief, Rain-in-Face, whom he married 36 years ago in Arizona. His squaw is considered the wealthiest Indian woman in a large section of the West. The principal feature of the wedding is the bestowal of a ring upon the husband. In Mr. Willard's bethrothal his bride placed a fine opal upon the second finger of his left hand, which has not and never is to be removed. A chip taken from the stone is worn next to the heart of the wife. The latter, whose photograph Willard carries, is a beautiful woman and well educated, being tutored at a prominent institution at Lawrence, Kansas.

Union Station at Lawrenceville.

It is learned from a reliable source that the Central station at Lawrenceville will be overhauled and fitted up for a union station for the use of both the Erie and Central. W. E. Brown, manufacturer of headings, etc., near the depot, has been notified to vacate the building owned by the Erie. It is expected the work will be commenced next month.

STORIES OF THE SECRET SERVICE

BY
Capt. Patrick D. Tyrrell

STORY No. 5

The Boscobel Koniackers

Being an Account of the Capture and Conviction of the Band of Counterfeiters Operating in Wisconsin in 1878.

By CAPTAIN PATRICK D. TYRRELL

[Copyright, 1905, by Marion G. Scheitlin.]

Frank W. Oakley, United States marshal at Madison, was told of my plan and his services and those of two of his most competent deputies were secured. Warrants were taken out secretly at Madison. Marshal Oakley said he had frequently heard of Kale Ellis, and that from all he had heard he was a dangerous man to handle. I also sent to Chicago for John McDonald and C. D. Townsend, the latter a secret service operative. The five men were instructed to come to Boscobel on the same day, and to register at the hotel without letting it be known that they knew me or knew one another.

It was about 11 o'clock at night when I smuggled them into my room, where I outlined my plan to them. I did not deem it consistent to send any other man into probable danger of which I myself was afraid, so I planned to take the lead in the actual entry of the house. One of the others was to be stationed about 16 feet from each corner of the house in such a way that each could command a view of two sides of the building. I calculated that Ellis and Brown might leap from the second-story windows in front when they heard me ascending the stairs. To the men stationed in front I said:

"One of these men who may jump from the second story has sworn to kill on sight any secret service man that tries to take him. His record is such there is no doubt he means what he says. If these men jump from the windows they will be armed and will kill any men in their path. Either you or they will be killed. It will be better if it be they. Shoot them before they strike the ground if you want to save your own lives."

MALCOLM ROBINSON

* * *

The nearest neighbors of the Robinsons had a child that was not expected to live through the night on which we planned the raid. Mrs. Robinson, although the wife of one criminal and the associate of others, retained the maternal solicitude for any child that was sick and had made herself useful at the house of her neighbors. She had been at the bedside of the little one during the day and returned only in time to prepare supper for her husband and the other "koniackers." I knew of her interest in the condition of the sick child, and decided to turn it to our own advantage. At a quarter to two in the morning of April 16, 1875, we left the hotel and repaired to the Robinson home in such a manner as not to attract attention from any belated townsman in case we met one.

After reaching the premises no word was spoken and none was necessary. A final and detailed instructions had been received by the officers before we left the hotel covering any possible emergency that might arise. The night was very dark and a high wind blew, uniting our purpose well.

With each man at his station, I rapped at the front door softly, one of the deputy marshals who was recommended for his coolness and bravery at my back. There was no answer and I knocked again, lightly, as I wished to avoid waking the men sleeping upstairs. Still there was no response, and the third time I rapped harder. Robinson came to the door. Without opening it he asked:

"Who's there?"

"The child is worse," I answered.

At this he opened the door carefully, but wide enough to enable me to get my foot through the opening and force a quick entrance. The deputy at my back was as dependable as I had been told he was, for he followed instructions to the letter, pressing in behind me and taking Robinson off my hands so that I could be free to go after the others. In a flash he had Robinson under cover of his revolver, and threatened him with death if he made any outcry.

The taking of Robinson had occurred in the little front hallway from which

MRS. MALCOLM ROBINSON.

the stairs led to the second floor. Revolver in one hand and dark lantern in the other, I ran softly up the stairs. The door of the room in which the other two counterfeiters slept was ajar. Throwing the flare of the bull's-eye into the room, I saw Ellis and Brown in bed, but each reaching for his revolver, one of the weapons being under the pillow and the other on a small stand at the head of the bed. Coving them with my own weapon before they had time to lay hands on their revolvers, I shouted:

"Lie back, or I'll kill you."

Both lay on the pillows.

"The first that moves will be shot," I commanded.

Cautiously and with my revolver and lantern still trained on the counterfeiters, I backed to the front window and rapped on the pane. This was the signal that had been arranged for two men to come to my assistance. Under the cover of three revolvers Ellis and Brown were doggedly obedient and put on their clothes. The other two men had by this time entered the house and gone to the relief of the deputy who entered with me in caring for Robinson and his wife.

In the room across the hall from the sleeping-room of Ellis and Brown I found the printing press and materials they had been using, $15,000 in 50-cent scrip, together with the same plates Kale Ellis had dropped in the Pecatonica river, in making his daring escape from Operative Drummond long before.

The three cursing counterfeiters, Mrs. Robinson and the "Koniacking" outfit were taken to Madison on the next train. The men pleaded guilty and were sentenced to serve seven years in the penitentiary. Mrs. Robinson was given her liberty.

* * *

Well satisfied with the results of the Wisconsin job, I returned to Chicago and dropped into the routine of my work, little thinking that the events immediately to follow would necessitate my return to the Badger state. But no sooner had I returned than a $100 note was brought to my attention which had been sent to the Union national bank from the City bank of Portage, Wis., a correspondent of the Chicago bank. The bill, in my opinion, was unquestionably counterfeit. A few days later a $100 bill of the same issue, but bearing the name of another bank, was offered at the Chicago post office. Then to the Traders' national bank there came a $100 bill from the bank at Shelbyville, Ill. This was also of the same issue, but bore the name of still another bank. My collection was soon further increased by a $100 bill from Parsons, Kan., following which came the information from secret service headquarters that a $100 note had been passed at Louisiana, Mo.

Here was an unexpected shower. The bills were apparently all off the same plate, which had been a skeleton plate, the names of the Revere national bank of Boston, Second national of Wilkesbarre, Pa., and the Merchants' national of New Bedford, Mass., having been filled in by the skeleton process. At the United States subtreasury Fred M. Blount, the cashier, insisted the bills were genuine. The cashiers of five out of eight banks to which they were submitted also held them to be good. Thomas P. Tallman, cashier of the Traders' national, and I insisted they were counterfeit.

I found at the post office that the bill offered there had been sent by the postmaster at Cambridge, Ill., to whom I immediately sent a telegram in the name of J. W. Palmer, the Chicago postmaster. The Cambridge postmaster answered that he had received the bill in question from the Cambridge bank and that no accurate description of the man who had passed it could be obtained. The cashier of the bank at Portage wrote that he had received the bill from a man about 45 years old, nearly six feet tall and with dark, full beard. He looked like a western farmer, the cashier wrote, but further than this the description was hazy. A somewhat similar general description, except as to the color of the beard and altogether more definite, came from Parsons. I sent Operative Kennoch to St. Louis and Louisiana to pursue the investigation there.

* * *

While these things were happening I received word through the United States marshal at Springfield, Ill., to the effect that a deputy sheriff at Vandalia, Ill., had arrested a man for trying to pass a $100 counterfeit bill at the Farmers' and Merchants' national bank in the latter city. This bit of news, considered in connection with the rapidly occurring events of the days previous, was decidedly important, and I lost no time in getting to Vandalia. I found that at all, bearded, farmer looking man of about 50 had tendered a $100 bill to David Palmer, of the local bank, and that Palmer had declined to accept it, reporting the matter to Deputy Sheriff Cluxton, who had arrested the stranger at the railroad station as he was about to leave Vandalia. He gave the name of "Levi Logan," and said he had received the bill from one Charles Scott, of Fond du Lac, Wis., in a horse trade. When arrested he had in his possession another counterfeit bill of the same kind as he tried to pass, and $154 in good money.

I questioned the prisoner, but decided from his manner that he was not "Levi Logan." Who he really was remained to be found out. I asked for permission to take the prisoner into my custody, but Deputy Sheriff Cluxton declined to turn him over to me. I argued that if held and tried in that county he could not possibly be convicted because witnesses could not be brought in from another state, whereas, the government could command the attendance of witnesses from any state. The local authorities also had no facilities for doing the work necessary to secure such evidence as would convict the prisoner. But Cluxton was obdurate. I appealed to a prominent local attorney who had influence with the deputy sheriff, and in this way finally secured custody of the prisoner and took him to Springfield.

I often have thought since that if the deputy who clung so tenaciously to his man had had any idea of the part the prisoner was to play in counterfeiting history he would have relinquished him gladly to the United States authorities. Had he persisted in retaining custody of "Levi Logan" it is likely that one of the most important bands of "koniackers" in the country would have enjoyed their liberty much longer than they did.

* * *

The only clews I had to work on in establishing the identity of "Levi Logan" were his story that he had come from Wisconsin, and a description of the man. The first clew was strengthened by the fact that the bills that had found their way into Chicago had been passed by a man traveling from north to south. I was convinced that "Logan" was an adept in the "shoving" of counterfeits, and if this were true and he hailed from Wisconsin there was little probability that he was not affiliated with the Boscobel gang in that state.

LEVI LOGAN.

In the meantime the bill on the Revere national of Boston had been received at the Chicago post office from George C. King, as told in the beginning of this story. This bill had come from the east, and from this fact I surmised that the man who had passed it had traveled west to Wisconsin, probably from New York city, and thence southward.

I believed that in a region that had harbored for years such a strong band of counterfeiters as the Boscobel crowd there must be information concerning the identity of a "shover" who said he came from that locality, and who apparently was thoroughly familiar with it. Consequently I provided myself with photographs of "Levi Logan" and started for Wisconsin.

* * *

On this trip I had not long pursued my investigation when I encountered the name of "Watson"—one with which I was entirely unfamiliar in counterfeiting circles. From the report I got from persons familiar with Kale Ellis, Frank Brown and Malcolm Robinson, the "Watsons" must have visited Wisconsin frequently, always associating with men who bore shady reputations, and who later were found to be counterfeiters. The reputed home of the "Watsons" was at Clear Lake, Ia. Without going to that place I stored away what I heard about them for future reference, continuing my search in Wisconsin.

At last I found my reward through casually showing the photograph of "Levi Logan" to a man who at once recognized him as the father of Mrs. Malcolm Robinson. The true name of the Springfield prisoner I found to be Frank Conway. One of his daughters had married Malcolm Robinson and another had married his brother, Clate, both of the husbands then being in prison for counterfeiting offenses.

[To Be Continued.]

Couldn't Carry the Cabbage.

She was a very small girl indeed, and she stood contemplating in despair a very large cabbage just as a young lady of benevolent mind passed by. The young lady took note of the despairing face.

"Can I do anything to help you, dear?" she asked kindly. "Can't you carry that cabbage?"

"No'm," said the child, hopefully.

The young lady considered her ten[illegible] and picked up the cabbage.

"Come," she said, and forthwith balanced the cabbage on her open hand to show how very strong she was. "You can carry it just to the door—can't you, honey?"

"No'm, I can't very well."

"But why not? It isn't heavy."

The young lady was plainly puzzled.

"No'm, but there's a big worm on it right where your hand is, and I don't want to touch it. It's a horrid worm, like."

But the young lady was already hurrying off toward the corner with a handkerchief tightly clutched in her hand.—Judge.

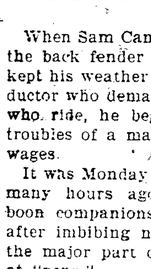
It Ought to Work.

"A gentleman writes to inquire," said the lady who conducts the "Answers to Correspondents" column, "how he may keep the flies from bothering his bald head. Can you suggest anything?"

"Oh, yes," promptly responded the boll weevil editor. "Advise him to hire a [illegible] wig wielder to live in one of [illegible]

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.



We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

SAM'S HOMECOMING.

When Sam Camarillo clambered onto the back fender of the street car and kept his weather eye open for the conductor who demands money from those who ride, he began to reflect on the troubles of a married man with small wages.

It was Monday night, and it was not many hours ago that Sam left his boon companions at Perro's saloon, after imbibing much wine and losing the major part of his weekly stipend at "peno."

"I leave right away," he told himself. "Maria and the little ones—well, they can go to house on Polk street." Then he thought of Pietro, his cousin, who had been given the alternative of supporting his wife and family or going to jail for abandonment. As he cogitated, a big policeman decided his course by pulling him off the fender with the warning:

"Ye blame ginny, it's the thurrd toime I caught ye stealin' a ride. The next toime ye go to the station."

Smarting under this new indignity, Sam walked toward the tracks and clambered aboard a passing freight bound for the west.

In vain did Maria apply to Perro, the saloonkeeper, for news of her lord.

"You go 'way," growled Perro. "Your Sam he owes me much for drinks. Now he is gone."

So Maria went. The kindly settlement worker tried to comfort her, without avail. Finally the settlement woman found her a place to scrub in an office building, while the babies were cared for at the settlement. In the meantime every effort was made to have Maria swear out a warrant for her erring husband, but she refused. "He will make much money and then come back to me," she would say.

It was four months afterward that a dejected-looking little man walked into Perro's saloon and called for some beer. Perro's wife was behind the bar, and she didn't know that the customer was Sam Camarillo.

"You know Sam Camarillo?" queried Sam.

"Know him?" replied Nana Perro, contemptuously. "No, but Tony, he knows him. He says Sam owes him much money for wine and 60 cents on a game of 'peno.' He says Sam is gone, and Maria, his woman, is cleaning floors. She has told the policemen to put Sam in the prison."

Sam shuddered. He remembered how stern the huge rambling building looked. A freight car would be much better, he thought, only that the section gang had told him he cheated at cards, and they had given him the warning of the crossed fingers never to be seen on the railroad.

But then Maria was going to give him to the police. Could she be persuaded to receive him back if he brought her a present? It was a bright idea. He counted the money in his pocket. There was just 19 cents. Then he walked over to Maxwell street to a Jewish peddler.

"Punkas, punkas!" called he. Sam didn't know just what they were, but he jingled his 19 cents and asked:

"How mucha da punk?"

"Twenty cent," answered the peddler.

"Giva you nin'teena cent," Sam said.

"All you got?" asked the peddler.

"All," replied Sam, laconically.

"All right." The Jew picked out the smallest pumpkin and Sam marched off with his prize under his arm.

He walked through the streets to the little rear shanty without being recognized. Turning into the narrow passageway between two buildings that led to his erstwhile home, Sam opened the door. Maria, who was busy at the stove, turned and regarded her spouse coldly.

"You have come?" she said.

"I have come, Maria," answered Sam, quietly. "It was the Mafia. See, I have brought something," and he held forth his "punk." Maria fell upon his neck.

"My good man!" [illegible] she exclaimed. The reconciliation was complete. Maria confided in a neighbor woman the next day.

"You see, Sam went away for a long time, and when he came back last night he brought a beautiful yellow water-mel. We have eaten of it, and the babies are sick. It was a fine gift."

Sam's pumpkin bought his way back into his good wife's graces, but the knowledge of a law whereby he could be punished for further derelictions, held over him as a club by the good, albeit wise, settlement worker, has kept him away from Perro's. And it was not until the good woman persuaded him to go to night school, where he sat beside a couple of ambitious Greek peddlers, that he learned the true purpose and entableness of "da punk."—Chicago Record-Herald.

Once Was Enough.

Mrs. Crawford—Why doesn't poor Mr. Henpeck pluck up courage once in awhile?

Mrs. Crabshaw—Perhaps he remembers the time when he plucked up courage and proposed.—Puck.

A Simple Plan.

Mr. Youngman (after long thought)—Is there any way to find out what a woman thinks of you, without proposing?

Mr. Benedict (absently)—Yes; make her mad.—N. Y. Weekly.

HAPPY WOMEN.

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest,
The distress of urinary troubles,
To find relief and cure?
No reason why any reader
Should suffer in the face of evidence like this:

Mrs. Almira A. Jackson, of East Front St., Traverse City, Mich., says: "For twenty years I was doctoring for kidney and liver trouble, but without benefit. Just before I began using Doan's Kidney Pills I was almost paralyzed. I could hardly stand on my feet because of the numbness and lack of circulation. Had a knife been thrust into my kidneys the pain could not have been more intense. My sleep was disturbed by visions of distorted figures. The kidney secretions were annoyingly irregular, and I was tortured with thirst and always bloated. I used seven boxes of Doan's Kidney Pills. The bloating subsided until I weighed 100 pounds less, could sleep like a child and was relieved of the pain and the irregularity of the kidney action. My circulation is good and I feel better in every way."

A FREE TRIAL of this great kidney medicine which cured Mrs. Jackson will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. For sale by all druggists; price, 50 cents per box.

WHEN YOU CATCH COLD

Do not take chances on it wearing away or experiment with some unknown preparation which may leave the bronchial tubes and lungs weakened and susceptible to attack from the germs of Pneumonia or Consumption.

FOLEY'S HONEY AND TAR

not only stops the cough but heals and strengthens the lungs and prevents serious results from a cold. Contains no opiates.

It Saved His Life After the Doctor Said He Had Consumption.

W. R. Davis, Vissalia, California, writes: "There is no doubt but what *Foley's Honey and Tar* saved my life. I had an awful cough on my lungs and the doctor told me I had consumption. I commenced taking *Foley's Honey and Tar* and found relief from the first and after a half bottle cured me completely."

A Policeman's Testimony.

J. N. Patterson, night policeman, of Nashua, Iowa, writes: "I will whisper I had a bad cold on my lungs and tried at least a half-dozen advertised cough medicines and had treatment from two physicians without getting any benefit. A friend recommended *Foley's Honey and Tar* and two-thirds of a bottle cured me. I consider it the greatest cough and lung medicine in the world."

Three sizes 25c, 50c and $1.00. The 50-cent size contains two and one half times as much as the 25c size and the $1.00 bottle almost six times as much.

SCENES IN UGANDA

YOUNG MASAI WARRIORS AND THEIR STATUE-LIKE FORMS.

Retirement and Marriage—The Ba-Hima the Normans of Central Africa and Their Civilization—Character of Country.

The young men amongst the Masai are all warriors (theoretically) between the ages (approximately) of 17 and 27. When in this stage they are known in their own language as El Moran. They pull the head-hair out to its greatest length, even sometimes twisting and plaiting into their wool fiber and string. The hair is then thickly coated with mutton fat and red clay and tied into perukes. All hair on the face and body is plucked out by iron tweezers. The skin is kept constantly lubricated with mutton fat mixed with red clay, but as a rule the body is not disagreeably oily, and this lubrication only has the result of giving a beautiful polish to their statue-like forms.

As regards the body, there is probably no more beautifully formed type of man than the young Masai warrior. The face is sometimes in keeping with the body, but more often has a rather brutal and negro aspect. Nevertheless, the Masai are not pure negroes, but obviously received a very long while ago a slight infusion of amitic blood from the races dwelling to the east of the White Nile. Whilst they are in the young-man-warrior stage the Masai live principally on milk and on blood drawn from the veins of living cattle. They also occasionally eat the meat of oxen, goats or sheep.

When a Masai decides that he has had enough knocking about, and has accumulated sufficient property on which to retire, he decides to marry. This is usually about the age of 27 to 30. After marriage he shaves his head, or at any rate keeps the hair of his head very close-cropped. He ceases to anoint himself with mutton fat, and definitely ranges himself with the old men, who in contra-distinction to El Moran, the young men, are termed El Moru or El Moruok.

The Ba-hima have been the Normans of Central Africa in regard to their rapid conquests (possibly contemporaneous with the Norman conquests in Europe), the superior civilization they introduced into many countries, and the domestic animals which they brought with them from the country of their origin, which was in all probability the southeastern part of the

DEEBORAS, A MUHIMA.

Egyptian Sudan. The Ba-hima are obviously closely related to the Somalis, the Galas, and, perhaps, the ancient Egyptians.

Although it is the fashion amongst the men to keep the head hair closely cropped it would, nevertheless, if allowed to grow, be more frizzly and less woolly than that of the unadulterated negro. The features of the face are certainly not negro, but Hamite. The color of the skin also is much lighter than amongst the negroes. In Deeboras, a Muhima, of whom I give a sketch, it is quite a bright reddish yellow, but I have frequently seen it no darker tinge than amongst the Fellahin of Egypt. The individual here depicted is a native of Mpororo, on the southwestern limits of the Uganda protectorate. He was a famous elephant hunter, and a most charming, gentlemanly man.

Uganda proper is a country of low rounded hills interspersed with deep valleys, that invariably contain marshes or dense forests that have, to some extent, absorbed the marsh. In the whole of the kingdom of Uganda there is scarcely anywhere a stream or river of clear running water. Every watercourse is choked with vegetation, chiefly papyrus and other rushes, "bottles-a-blowing," and rank ferns. Looked down upon from a height, these often broad marshes look like beautiful expanses of bright green turf. On the hills above the marsh the country is most pleasing. On these heights there are innumerable wild flowers, but in color displays two especially predominate. One is a species of sunflower and the other is a beautiful mauve-composite called Vannonia.

HARRY JOHNSTON.

An Apt Pupil.

Doctor—The trouble with you is that you don't take enough exercise. Take more.

Blinks—Thanks. How much do I owe you?

Doctor—Two dollars. Here is your change. Much obliged. Heigho! I don't feel very well myself.

Blinks—You take too much exercise, doctor. Take less. Two dollars, please.—N. Y. Weekly.

Aurora Borealis Causes Panic.

A recent display of aurora borealis frightened the citizens of a little town in northern France. They thought that a neighboring village was on fire, so they took out the fire engines and hurried to the supposed conflagration. The brilliant display threw Caen into a panic. Afraid to go to bed, the inmates [illegible] and the [illegible] women, who prayed all the night through.

At the Opera.

Patience—Why do they call them private boxes?

[illegible] in the most conspicuous place in the house!—Yonkers Statesman.

A PRETTY BEDROOM.

How One Can Make a Most Attractive Chamber with a Plain Chambray and Figured Chintz.

In this plan of decoration lie great possibilities for making a pretty bedroom where you are limited either as to space or furniture.

The scheme is an upholstering one, in which the absence of furniture is replaced by fabrics, a plain and a figured one combined.

Say you choose a plain pink chambery of a strong, washable shade and a cretonne or chintz in which there are pink roses and some green on a cream colored ground. As it stands a simple little iron bed is about all the furniture you have in the room.

The main idea of the decorative plan is to curtain the space back of the bed in the same way you curtain the window. In this there is not only a tremendous effect of furnishing, but there is protection against the draughtiness, which makes old-fashioned people complain of "these beds without headboards."

To make the arrangement symmetrical, have curtain rods and rings which match mounted at the same height over both the window and the bed. If the window and bed are in such proportion that it is possible, have the length of the poles the same, so that your curtains will be of the same size. That at the back of the bed should be so wide that a generous strip of it can be seen clear down to the floor as it extends in either side of the bed head. If the window is narrow have the pole cut so long that the curtains will hang over the side framework and even back a little way on the wall if necessary. Have a deep border of the figured material across the top of the curtains and a narrow strip down the outside edges.

Remember in putting both of them up that the good effect is a great deal in the accuracy with which you lay the little plaits when you fasten them to the rings. Have easy running rings so that you can draw the window curtains at night and have a low sash curtain made of the plain and bordered with a narrow band of the figured. The narrow bands also extend down the middle of the long window curtains.

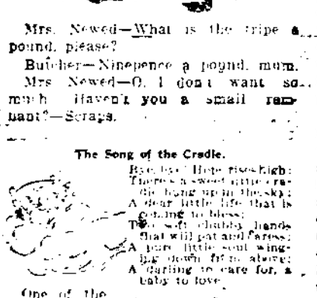
Have a counterpane of the plain pink with valance all around of the figured, put on with a little fullness. This need not extend clear to the floor, but may have the effect of only upholstering the deep box springs. Make day covers for the pillows of the plain pink, with narrow ruffles all the way around of the figured.

For the toilet table have a stand of three triangular shelves made by a carpenter. Cover the top and curtain the front, using the same broad piece of figured goods at the top edge of the curtain that you have on the others. A couple of small shelves may be bracketed to the two walls over this table, and a simple triple shaving mirror hung above them. If you have a little table with a shelf in the bottom cover the top with a pink chambrey slip cover, which is edged and held down by a narrow cretonne ruffle. Under this and across one side of the table have a curtain of the chambrey or small rugs.—Chicago Tribune.

Sago Gruel for Invalids.

Two cups of water, two tablespoonfuls of sago, one tablespoonful of lemon juice and a pinch of salt. Put the sago in the water while cold and warm by setting in a saucepan of boiling water. Stir often, and let it soften and heat for one hour. Then boil ten minutes, stirring all the time; add the sugar, wine and lemon, and pour into a bowl or mold to cool. Eat warm, if preferred.—Chicago Record-Herald.

BARGAIN HUNTER.



Mrs. Newed—What is the tripe a pound, please?

Butcher—Ninepence a pound, mum.

Mrs. Newed—O, I don't want so much. Haven't you a small remnant?—Scraps.

The Song of the Cradle.

Rock-by! Hope rocks high:
There's a seed within the sky;
A dear little life that is
growing to bless;
Two soft chubby hands
that will pat and caress;
A pure little soul winging down from above;
A darling to care for, a baby to love.

One of the greatest agencies which enlightened Science has discovered to relieve motherhood from excessive suffering is the "Favorite Prescription" devised by Dr. R. V. Pierce, chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y.

This wonderful "Prescription" imbues the entire nervous system with natural, healthy vitality, gives elastic vigor to the delicate organism specially concerned in motherhood, and makes the coming of baby entirely free from danger and almost free from pain.

"I wish to state that I have used Doctor Pierce's Favorite Prescription with very good results," writes Mrs. Katie M. Armis, of Hudson, New Hampshire. "Had been in poor health for over four years and had been twice to the hospital. My husband brought some of your Favorite Prescription, and it has carried me easily through my last two confinements. We are now blessed with two healthy children, and I am sure your medicine has done me more good than all the other treatment I have ever received."

BAD HEADACHES generally arise from bad stomach. Foul breath, bitter taste, coated tongue, sour eructations or belching of gas are common symptoms though not all present in every case. To cure, take small doses, only one or two at a time, of Dr. Pierce's Pleasant Pellets, the Original Little Liver Pills, first put up by him over 40 years ago. One or two a laxative, three or four cathartic.

CORBIN PARK GAME

SENSATIONAL TALES CIRCULATED ARE UNTRUE.

Professional Forester Superintendent of the Great Preserve—Many Animals Shipped to Other Parks—Skilled Hunters.

As one who lives within half a stone's throw of Corbin Park, the writer has been somewhat amused but more disgusted at the sensational stories which have recently been published concerning the alleged slaughter of deer, elk and buffalo on this great New Hampshire preserve. These widely circulated stories all agreed on the main point, which was that the Corbins were killing off their game by wholesale to avoid the expense of winter feeding.

The accounts varied from pale green color to bright yellow, to harmonize with the particular papers in which they were published, but in one particular they were exactly alike—they were all utterly false. And what is more there was no excuse for these falsehoods, as the truth was accessi-

THINNING OUT.

ble to anyone who cared to print it. And the truth, in a nutshell, is this: There was less game killed in Corbin Park this winter than has been killed there during any previous winter for several years back. The writer knows all the professional hunters and practically every man who has fired a gun in the preserve this season; he knows exactly the number of deer, elk and wild boar which have been shipped, and that fewer were shipped this winter than last, for instance.

The aforementioned stories would have been a trifle more plausible had they been circulated last year or the years before. This is the mildest winter New Hampshire has known for a long time. There was practically no snow in Corbin Park until the 9th of February, and consequently the animals, with the exception of the buffaloes, have required much less feeding than has been necessary in previous years. But even had the winter been a severe one, the extensive operations in scientific lumbering now going on in the preserve insures the elk and deer an enormous amount of browse at no expense to the owners.

Of course there has been a large amount of game shipped from the park this winter, as usual. Anyone who gives any thought to the subject must realize that a given area contains just so much grass and so many trees and shrubs and no more, and that, consequently, it will support just so many deer or other animals which rely on the grass and trees and shrubs for food.

This "thinning out" is not done haphazard. The superintendent, Mr. Blaine S. Viles, is himself a professional forester, and well-informed as to the amount of available browse in the preserve each year. He supplements his own knowledge with expert advice as to the number of animals the park will support under existing conditions, and then he goes ahead. First of all, he makes arrangements to fill the numerous orders which have been received for live animals required for the stocking of other parks and game preserves. Many deer, elk and wild boar are driven or coaxed from the main park into smaller inclosures, where they are kept until they are needed; then they are put into crates and shipped to different parts of the country.

But besides these there are always large orders from the markets in Boston, New York and elsewhere, and such orders are filled by professional hunters, who shoot and bring in the game as it is needed. These men are expert marksmen, kill almost everything they fire at usually with little or no pain to the animals themselves. I sometimes accompany these men on their hunting trips, and I can testify to their skill with a rifle; and in truth they should be skillful since they get more practice on big game than almost any other men in America.

Corbin Park is the largest game preserve in America, and the shooting of the surplus stock, which is not shipped alive is one of the practices which tend to make it successful. That it does cost money, and a lot of it, to feed great numbers of deer and buffalo in winter cannot be denied, but there is no connection between this expense and the killing of the animals. The biggest expense, by some odds, is entailed by the maintenance of the great buffalo herd, yet not a single buffalo has been killed at Corbin Park this winter. Some newspapers cannot help lying, but they might at least try to tell reasonable lies.

ERNEST HAROLD HAYNES.

A Theory Confirmed.

"Some scientists say that the manner in which we eat has much to do with forming character."

"I guess that's right," answered Mr. Cumrox. "I'd never have enjoyed my present commercial rating if I had gone in for five o'clock teas instead of five o'clock breakfasts."—Washington Star.

Assisting Him.

"I propose to see that my client gets justice," snarled the lawyer.

"So do I," responded the prosecuting attorney, affably.—Houston Post.

GOOD MILK MUCH NEEDED.

Much Poor Material Put Upon the Market in the Large Cities.

One of the compilers of the Year Book of the department of agriculture is authority for the statement that while few cities in the north are well served with a good quality of milk, the south is even a greater sufferer. The material put on the markets, particularly in the poorer portions of the large cities, is of such a character as to give the general city dweller a poor idea of the value of milk as a food. The housewife who refused to buy milk from a dairyman because she had found a thick, greasy scum on the sample left the day before is not a rarity. The sight of real cream was probably so unusual to her that she did not recognize it in its place of origin. Much of the milk offered for sale is watered and mixed with antiseptics, such as formalin, boracic acid, etc., in order to keep it from suring. Where milk of this kind is sold it should be an easy matter for an honest and capable dairyman to establish a good business. It is safe to say that half the towns in the United States offer good opportunities in this line at the present time.

There are a number of reasons why the profit in the retail milk trade is not so large as might be imagined. The cost of delivering milk is considerable, especially in large cities where customers may be widely scattered. There is also more or less loss from patrons who do not pay. Where the ticket system is used persons frequently forget to put out the milk ticket for the early morning delivery. To get this ticket then [illegible] special trip some time during the day usually costs more than the ticket is worth. In conducting business of this kind, where small quantities of material are sold to a large number of people, promptness in collecting bills is necessary to success. There are many people in the city who cannot understand that in the summer time good milk, even under the best conditions, will sour within a day or two, and that milk which is not so affected should be looked upon with suspicion. Some successful dairymen furnish their patrons with printed literature giving facts regarding the composition of milk and the care of it to prevent souring.

OUR LANGUAGE UNIFORM.

While Great Britain, for Instance, Has Many Different Languages.

It has been observed that the language spoken in the United States is remarkably uniform, says H. M. Kingery, in "The Language of the Map," in St. Nicholas. True, there are many dialects, but Great Britain, less in area than any one of half a dozen of our states, contains such very different languages as English, Welsh and the Gaelic of the Scottish Highlands, to say nothing of the provincial dialects of Cornwall and Yorkshire, and the unique speech of the London cockney; while in this country, with its vast expanse of territory, its settlement by Spanish, French, Dutch and Swedish colonists, and its millions of immigrants drawn from nearly every country, large and small, all over the world, there is far greater uniformity of speech than in any other land of equal area and population.

The causes can be readily seen. The public schools have made us a nation of readers, and the press has supplied books and papers without limit. Press associations have done their part toward giving a uniform and fairly good tone to the newspaper language of the day. The telegraph, the telephone and cheap postage have brought distant parts of the country into quick and easy communication, and so have aided in teaching a common language. The railroad has peneirated every corner of the land and made us a nation of travelers. Countless human shuttles thus are thrown daily across the land in every direction, carrying with them the threads of thought and speech and doing their part to make the pattern of the whole. No doubt our maps which still present so many different kinds of names, will in time lose the strangeness and the "foreign air" that are so noticeable now.

Ances Wilds Explored.

Uncanoe tracks through the lands of the Indians have been trod by Baron Erland Nordenskjold, who travelled for 18 months in the Andes, along the western tributaries of the Amazon in practically unknown districts. He visited in all three tribes, the Yamineas, the Chunchos and the Atsahuancas, who, until a couple of years ago, lived like people of the stone age. The last two still retain their customs in large measure. No white man had ever before visited the Atsahuancas. The explorer travelled through the territory of a fourth tribe and were constantly watched by the people, who would have no dealings with the strangers. The Quichas and Aymaras living around Lake Titicaca, at an altitude of 12,000 feet, and in the folds of the Andes, offer an interesting study for the ethnologist, since they have retained many customs unaltered or but slightly modified since the days of the ancient Incas.

For Family Colds

A reliable Cough and Cold cure should be always in the house ready for use the moment the first symptoms appear.

It is always easier, cheaper and better to check a cold in the very beginning.

It is safer, too.

Shiloh's Consumption Cure, the Long Tome, has been tested for thirty-three years, and tens of thousands of homes in the United States and Canada to-day are never without it.

"We are a family. We have bought many bottles of Shiloh's Consumption Cure. It never fails us." [illegible] Mary L. Arch, Cassville, N.Y.

If it were anything but the best would this be so? Try it in your own family. If it does not cure, you get back all it cost you. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell it.

SHILOH

HOW SHE CURED HIM

BY R. NEISH.

"It's a most inadvisable match," said Lady Julia Laugton, speaking with more than her usual decision.

"Why?"

Lady Julia shrugged her shoulders.

"O! I don't know, excepting that these mixed marriages are seldom a success."

"In what way mixed?" I asked, mildly. "Isn't she as good as he—"

"She is far better," said Lady Julia, emphatically, "and that is why they won't get on—you see, she is only a little country girl—a mere nonentity—and he—"

"She has a very firm chin," I said, meditatively, "and she has most of the money—at least, so I assume, or she and her brother would not be staying at the Carlton."

"Yes, but you can't manage a man with a mere chin," said Lady Julia, "or even with money; you want manner and knowledge of the world, and all sorts of other things. He is the most selfish young man I have ever come across."

"He has been spoiled."

"Of course, shamefully," she agreed. "But you or I would soon unspoil him. Look at Jim."

"Poor Sir James," I said, with sympathy.

"Not at all," laughed Julia; "he is far happier than before he married me—he dare not be late for dinner now."

"Yes," I said, reminiscently; "I really believe he was worse than Teddy. No, I don't believe anyone could really be worse."

"Well, perhaps not," she admitted; "but what will she become with a husband like that, considering he's absolutely insufferable now—she will not dare to call her soul her own."

"Poor Teddy—yet he's charming when he likes—he's only too modern."

"It's a pose of his; this new fad of being late for everything—he came to my dinner last week three-quarters of an hour late, and then said he had fallen asleep while dressing."

"He is giving a party for her tomorrow at the Carlton. By the by, you are coming?"

I nodded. "Yes—I hope he won't be late. I wonder what she will do if he is?"

We were all assembled in the hall and even Lady Julia and I were up to time, while those who were late had all arrived. Teddy, in his little, rather effeminate, notes had mentioned 8:15 for dinner, and now it was five minutes to nine, and there were no signs of his appearance. His fiancee, Miss Dorothy Lamb, was looking very pretty and extremely anxious.

"I hope Teddy's motor hasn't come to grief," she said to Lady Julia, of whom she is very fond. "Do reassure me; do motors often go wrong?"

Lady Julia shook her head. "Not Teddy's. Those happy-go-lucky young men very seldom come to grief."

"Then what can have happened," she argued. "He is more than half an hour late, and I feel so uncomfortable. He said 8:15, and he can't have forgotten the time. What do you think, Lady Julia?"

Lady Julia looked very kindly at the little anxious face, and then made room for the girl by her side.

"My dear Dorothy," she said, gently, "I believe he's being late on purpose—you see it's his new pose."

"His new what?" echoed Dorothy, in astonishment.

"It's a pose of his," she explained; "he always keeps people waiting—no," she added, hastily, "not at your house, of course; he wouldn't do it down in the country; but in London one must do something eccentric if one wants to stand out from the crowd, and that's Tedy's idea of standing out. He is always late; he makes a business of it. He will come in in about half an hour and probably say he quite forgot we were dining with him—as though anyone could forget 16 people all the same day."

Dorothy's face turned slowly crimson.

"Do you really think he will?" she said, slowly.

"Yes, my dear girl, I really do"—then catching sight of the girl's face, she added, hastily: "What are you going to do, dear child?"

Dorothy rose, and her small mouth took a determined line that boded ill for somebody.

"We are going to have our dinner," she said, quietly, as with a look she called a waiter to her side.

We had two tables near the door, and there we sat a single vacant chair. We were enjoying an excellent dinner and had reached the quails before Teddy, looking languidly pleased with himself, came sauntering in and up to Dorothy.

"Sorry, dear girl," he said, as he glanced round for his seat, and then, including us all in a comprehensive bow, he added, in a drawling tone: "Sorry, dear people, but I quite forgot I was dining you until I passed on my way from the club and saw you all getting out of your carriages."

"Did you?" Dorothy, her head slightly on one side, looked genially up into Teddy's face. "Poor dear, how very unfortunate for you. I do hope you're not hungry, because there's no room here. You see, these are my guests and this is my party, and I haven't room for another person; but if you are dining here I hope we shall see you later on, in the hall, perhaps."

My heart was thumping for sympathy, I don't know for whom, whether for her or Teddy or perhaps for myself. I glanced across at Lady Julia and then at Dorothy, and then I looked back and was just in time to see the waiter fling open the door, and Teddy's back as he left the room.

Galveston, which is not even among the two largest cities in the Union in point of population, holds the second place in rank among American ports, according to the value of its exports. The government statistics on exports and imports for 1904 give the value of the exports from the five largest cities as follows: New York, $[illegible]; Galveston, $[illegible]; New Orleans, $[illegible]; Philadelphia, $[illegible]; Baltimore, $[illegible]. Galveston's [illegible] shows an increase of [illegible] over 1904.

The Best Expectorant IN THE WORLD.

Hotel Chalmette, New Orleans, La.

C. N. Crittenton, Esq.,
115 Fulton St., New York.

Dear Sir: I take pleasure in informing you of the following facts: On my recent trip from San Francisco to this place I took a severe cold, which rested on my lungs and ulcerated my throat to such an extent that I began to feel alarmed. At a station on the road I bought a bottle of Cough Syrup, which I used without deriving any benefit from it. During my last night on the train I could do nothing but cough and began to feel a heavy pain in my chest. On my arrival here I bought a bottle of

"Hale's Honey of Horehound and Tar,"

which not only cured my cough, but removed the ulcers from my thoat before I had used more than half the bottle.

I regard it as the best expectorant I have ever tried and shall never undertake to experiment with worthless syrups in the future. Yours very truly, A. Leonard Meyer, Immigration Agt. Central Pac. R. R.

The great popularity of this article has caused imitations in name calculated to deceive. Be sure to ask for and obtain "Hale's Honey of Horehound and Tar," which may be obtained of any Druggist.

Pike's Toothache Drops Cure in One Minute.

—It is reported that the Cohen Bros. will establish a branch store at Lawrenceville.

—Rev. John O'Toole will lecture in the opera house at Westfield on Saturday evening.

—C. F. Churchill, a glassworker, has moved his family from Covington to this borough.

—The annual ball of Bache Hose will be held in Armory Hall on Easter Monday evening.

—Arch Lamont left last evening for Philadelphia, where he will undergo a surgical operation.

—The young people enjoyed a ten cent social at the First Baptist church on Tuesday evening.

—The residence of Major George W. Merrick on Waln street is undergoing improvements.

—Mrs. Harry C. Moore left this morning for Philadelphia and New York on a business trip.

—Several glassworkers have gone to Roulette and Port Allegany, where they have secured work.

—Lee Whitney and Miss Carrie Keck, of Stokesdale, were married in this borough last Saturday.

—Mrs. H. W. Williams entertained a company of lady friends at a dinner party last Friday afternoon.

—Mr. and Mrs. Ray Petit, of Greensburg, are visiting at the home of Mr. Petit's parents in this place.

—L. P. Smart, manager of the New York Clothing House, is in New York city this week buying new goods.

—Ex-Prothonotary F. M. Sheffer is in Michigan, inspecting timber lands with a view of purchasing a tract.

—Mrs. Cass Lounsbury has been visiting her daughter, Mrs. Samuel Hartzog, in Corning the past week.

—Mrs. William Scheidweiler returned on Sunday evening from a visit with relatives at Tully and Corning.

—Jared Pratt, a well-known liveryman of Corning was in town Monday and purchased a horse for his stables.

—Lewis Krise, a well-known farmer and auctioneer of Liberty, had business at the county seat last Thursday.

—Editor James M. Miller, of the *Advocate*, has been spending a few days at his former home at Chambersburg.

—Miss Stella Ryan has been obliged to resign her position as teacher at Eldridge, N. Y., on account of her health.

—J. I. Signor was in Rochester several days last week, being called there by the death of his sister, Mrs. Fred Luscomb.

—S. B. Davis, of Westfield, has been visiting his brother, Jared Davis, at Stokesdale and other relatives in this locality.

—Albert Davis, of Little Marsh, has secured employment in the round house and will move his family to this borough.

—Frank Hastings, cashier of the Altoona National Bank, formerly of this borough, has purchased a $13,000 brick block in that city.

—The man who stands in the way of public enterprise is a menace to any community. Attend the meeting to-morrow evening.

—The men of The Free Baptist church will serve chicken pie supper in the church parlors this evening from 5 till 8 o'clock.

—Landlord J. W. Sullivan has purchased the Harrison lot between the Mathers residence and Harrison homestead on Main street.

—H. G. Baker was brought here from Morris last Saturday and lodged in jail. He is charged with securing goods under false pretense.

—Miss Florence VanValkenburg left Tuesday morning for Philadelphia to spend a few weeks with her father, E. A. VanValkenburg, of the *North American*.

—Mr. and Mrs. J. G. Wolf, of Waterville, Lycoming county, are spending a few days at the late home of Mr. Wolf's father, H. M. Wolf, on Central avenue.

—The Eastman house on West avenue, which was recently badly damaged by fire, will be remodeled and fitted up in modern style for a tenant house.

—Dr. J. P. Longwell was called to Bath, N. Y., last week by the illness of his father. He accompanied him to Mt. Clemens, Mich., for treatment for rheumatism.

—Rev. R. M. Cloud is conducting a series of revival meeting at Holiday. [illegible] baptized six people at the Free Baptist church last Sunday.

—Rev. John O'Toole, of Wellsboro, one of the most eloquent orators in this section, will preach at St. Patrick's church on March 17th, St. Patrick's day.—*Corning Leader.*

—S. L. Warren, who recently sold his home on Mead street, has purchased the new house built by Messrs. J. C. and S. A. Spencer on McIlroy street. Consideration $4,000.

—Mrs. William B. Cameron has purchased the property of Mrs. Lelia E. Hathaway on West avenue, now occupied by the family of J. Buzby, and will take possession April 1st.

—Deputy Sheriff Goodspeed has been confined to the house the past week by an attack of the grip. Constable Arthur Shumway has been acting as Deputy during his illness.

—Miss Mary Mathers, who has been employed in the store of Lugg & Co. at Knoxville the past year or more, has resigned her position and returned to her home in this borough last week.

—Edward J. Kelly has gone to Galeton to take charge of the branch clothing house of Finkelstein Brothers, to be opened in a few days. Mr. Kelly will move his household goods to Galeton next week.

—M. G. Stebbins is in the South inspecting some timber lands. He is accompanied by Burt A. Gee, of Sabinsville, who is also interested in the timber tracts, which are located in Tennessee and North Carolina.

—Mrs. John A. Wise and daughter, Miss Laura Wise, were in Owego, N. Y., several days last week on business in connection with the settlement of the estate of Mrs. Wise's sister, the late Mrs. Alice Brown.

—J. L. Snyder, who has been on a business trip in the South the past three weeks, left Meridian, Miss., just about two hours before the recent terrible cyclone struck that city, leaving death and destruction in its path.

—John Moyer, the old soldier who plead guilty to perjury before Judge Archibald in Scranton last week, was brought here on Saturday morning by Sheriff Dorsett and lodged in jail. He was sentenced to three months imprisonment.

—Edward J. Petrie, of Corning, a Central engineer, who died last week Sunday in that city, was a brother-in-law of Mrs. M. G. Austin, of this borough. He was 63 years of age and his widow will be remembered in this locality as Miss Mary Austin.

—Lewis C. Warren, of Ralston, formerly of this borough, visited relatives in town over Sunday. Mr. Warren is now employed as station agent for the N. Y. P. & S. railroad at Ralston. He was formerly employed as agent at Stokesdale Junction.

—Miss Martha Eaton has not resigned her position as bookkeeper and cashier at Graves & Mathers' store, as reported. She will resume her duties as soon as her health will warrant it. She is now receiving treatment in a Rochester hospital.

—Miss Emma Myers, of Knoxville, a former resident of this borough, and Frank Youngs, of New York, were married at Knoxville last week Tuesday evening. The bride has been in the millinery business at Knoxville for several years, moving from Galeton to that place.

—Mrs. John R. Bowen, a former well-known resident of this borough, who has been living in New York city with her granddaughter, Mrs. Walter Harris, fell one day last week and broke her hip. She is now in a hospital in that city and is regarded in a critical condition.

—The many friends of Mrs. G. C. Robertson, of Madison, N. J., will be highly gratified to learn that she is now rapidly convalescing from an operation for appendicitis, performed at the Morristown hospital last week Tuesday. Mrs. Robertson will be remembered as Miss Anna Cameron.

—The finest and most complete production of "Faust" ever given anywhere will be presented soon in Wellsboro. Lewis Morrison himself will play the part of Mephisto. The new scenery and electrical effects are said to be the richest and most effective ever given to Mr. Morrison's "Faust."

—Messrs. George R. Mathers and H. F. Marsh took their automobile to Elmira last Sunday. They were accompanied on the trip by Dr. A. G. Hamilton and John V. White. The party returned by rail on Monday, the auto being left in Elmira. Messrs. Mathers and Marsh contemplate purchasing a White steam touring car.

—John W. Smith returned last Saturday to Virginia, where he has an extensive contract for grading a plot on the Jamestown Exposition grounds at Pine Beach. He was accompanied by Mr. and Mrs. George Cole who will occupy a house on the grounds with Mr. and Mrs. Smith. Mr. Smith [illegible] Friday.

—J. [illegible] Copp, who [illegible] patient at the Forest Lawn Sanitarium for nearly two months, having undergone an operation for appendicitis, has sufficiently recovered to be removed to the home of his sister, Mrs. S. B. Wilkins. Mr. Copp was in a very critical condition for some time and his many friends are pleased to note his recovery.

—George Bacon, of Middleburg, Nebraska, a former resident of this county, died last Friday, aged 86 years. He was a brother of Dr. M. L. Bacon and Mrs. S. A. Wilson, of this borough. He was born near Wellsboro, living in the vicinity until 1870, when he went to Mansfield. In 1876 he moved to Middlebury. He was a veteran of the Civil War, being a member of Company G, 45th Pennsylvania Volunteers.

—A farewell banquet was tendered M. J. McMahon, of Galeton, formerly of Wellsboro, at the Hotel Edgcomb on Tuesday evening. By the change in headquarters of the freight and passenger departments of the Buffalo and Susquehanna railroad from Galeton to Dutton, Mr. McMahon's offices are moved from the former place. About fifty guests attended the banquet. Music was furnished by the Fullwood orchestra.

—Sheriff Dorsett went to Elmira last Saturday with requisition papers and returned Monday noon with Ward Loper, who is charged with taking $200 from the coat pocket of Mart Gleason at the Coles House. Loper was arrested in Elmira three weeks ago and was held in the jail in that city until requisition papers could be secured. He was arraigned before Justice O. B. Davis yesterday afternoon and in default of bail in the sum of $500 he was returned to jail to await the action of the next grand jury.

—C. W. Hardt, a Wellsboro boy, son of Anton Hardt, who has been in the employ of the Pennsylvania Railroad Company for several years, with headquarters at Harrisburg, has resigned his position as civil engineer in the construction department of that company to accept a position as Assistant Engineer to State Highway Commissioner Hunter. That Mr. Hardt will prove a valuable assistant to Commissioner Hunter goes without saying. We understand that the appointment was made by Governor Pennypacker on the recommendation of Mr. Hunter.

COMMISSIONERS' STATEMENT.

The Auditors Attempt to Mislead Taxpayers About the County Farm Expenses.

Editor of Gazette:—The undersigned are greatly surprised at the statements in the local papers made by the Auditors of Tioga county. In their report published last week they say that, after going over the accounts of the County Commissioners, they find them to be true and correct and even commend the Commissioners for their faithful and zealous attention to official duties. And now, this week, we find the same men accusing the Commissioners or the Superintendent of Poor of graft or mismanagement.

If, after examining every bill in the office they found any crooked deal or mismanagement, as they lead the taxpayer to believe, why did they not surcharge the same back to the County Commissioners, as their oath of office and the law of Pennsylvania says they should do? Because they know there is a court of justice in Tioga county, and they also know that such a charge would not be sustained.

The voters and taxpayers of the county no doubt remember the "graft" circular sent out from Wellsboro last fall on the eve of election, and what a great boomerang it proved to be. Mr. Taxpayer, please compare this second statement of the Auditors with that circular and see if you can detect a bad odor.

Let us compare figures and see the foundation of this statement, and if the Commissioners are wrong we would ask some taxpayer in the county to file exceptions to the Auditors' report as filed in the Prothonotary's office and thus bring every man guilty of graft to justice and have the Commissioners or their bondsmen reimburse the county.

"Why were these figures bunched," they ask. We will try and explain: It will be remembered last fall how the poorhouse question was decided by the vote of the people of Tioga county. The Auditors appear to be controlled by that same gang of disgruntled politicians. They could not sustain the assertion then, neither can they now, and they wish to use the Auditors as a catspaw to accomplish their ends. They failed to use all the figures at their disposal, using only such as would appear to help their case. They wanted to know how much feed was used and make it show in large red figures. But have they shown what the result was? Why not show both sides of the ledger? Because that makes the shoe pinch in a new place. Why don't they say, as honest men would, that there had been 35 cows kept the year round and that nearly all the beef and pork used in the county home had been fatted there? Why don't they say there have been 110 inmates kept every day in the year in milk and butter and $360 worth of milk; butter and calves sold besides? Why not tell the whole truth to the taxpayers of Tioga county, and then the Commissioners would be only too glad to grant their request. The men [illegible] use that kind of [illegible]. They know the county has a Board of Commissioners they can not dictate to and therefore they seek to [illegible] by making false assertions and misstatements.

[illegible] the whole truth, as men in their positions should. First, they declare that the cost of running the poorhouse has increased $10,000 in the last three years over the three preceding years, while the number of inmates has been the same. Is this true?

In 1900-1-2 there were 80,805 days' support in the poorhouse and for the years 1903-4-5 there were 801,100. Is this not an increase, Mr. Auditors? Why not confine yourselves to the truth, the whole truth, and nothing but the truth. The cost of keeping an inmate for the three last years was 27½ cents [illegible] while during the last term it was 31 cents. Mr. Auditor, did you not observe an advance in the price of provisions [illegible] that time?

In their late statement to the public the Auditors say: "Is it graft or mismanagement? The farmers may wrestle with the facts and make up their minds about that after due consideration." After due consideration by the Auditors, who began their official duties on January 1st, they submitted a report complimenting the Commissioners on the manner they had managed the affairs of the office. That they arrived at a different conclusion, after they had adjourned and signed their report, looks as though it were a bad case of "sour grapes," and as if their motives had been prompted by disappointed politicians and outside influences.

The financial statement went to the papers in accordance with the views of Auditor Watkins, who was left in charge of the work by Messrs. Rockwell and Smith.

We regret that the word "graft" was brought up, because we cannot find a definition of it in Webster. But here is an example of what we call graft, or getting something for nothing: The laws of the State say that a County Auditor shall have mileage from his home to the county seat and return once a week while auditing. Now, for one of their number to charge and receipt for 192 miles of travel, when it was only 96, looks like "graft," and not by the Poorhouse Superintendent or the Commissioners either. The books in the Commissioners' office are open at all times to the public and the Commissioners invite inspection of them. Yours for a square deal.

COUNTY COMMISSIONERS.

Galeton Girl Took Poison.

Miss Jessie Beever, of Galeton, daughter of Mrs. Beever, editor of the *Dispatch* of that place, has been employed as an operator of a typesetting machine in a printing office at Syracuse, N. Y., for several months. About six weeks ago she went to Westdesert, near Syracuse, where she had secured a similar position. Last Friday morning after breakfast she took a dose of strychnine.

After being found in her room in a critical condition a physician was called. She will recover. Miss Beever is said to have been in poor health recently, and that is believed to have led her to take the strychnine. At times she was unable to work.

Fatally Injured at Landrus.

Last week Monday afternoon Willis Swartwood received fatal injuries while at work at the Landrus mines. A loaded train of cars was coming out of the Bear Run mine when the motor jumped the track throwing Mr. Swartwood, a spragger, under the motor, where his body was pinned down by the four ton motor about two hours before he could be released.

When taken out it was found that the unfortunate man was seriously injured, his right leg being horribly mangled. He survived only a few hours. Mr. Swartwood was about 36 years of age and was a native of Mitchell Creek. He leaves a widow and two children.

A Victim of Bunco Game.

A Buffalo dispatch says: "Clarence M. Webb, of Kennedy, Pa., was lured away from the Exchange Street station by a bunco man, and in an hour returned to his mother, wife and baby without his wad of $139 and a certified check for $500."

Prominent Lawyer Suicides.

Attorney Stanley W. Little, one of Bradford county's most prominent lawyers, committed suicide in his home at Towanda last Thursday morning by shooting himself through the head with a revolver.

Early in the week he had been in Philadelphia visiting his sister, and on his return his family noticed he was morose and melancholy but thought that there was no occasion for alarm. No reason for his despondency can be found.

The New Road Law.

The County Commissioners have received a letter from State Highway Commissioner Hunter, calling their attention to the provisions of the new road law, which makes it the duty of the Commissioners to furnish the supervisors to each township, on the first Monday of March, with the latest valuation of the township property for county purposes. It is on this valuation that the supervisors are authorized to levy the road tax for the ensuing year.

Horses Burned in Barn.

John Lynch, of Delmar, on mail route No. 3, met with a serious loss by fire at an early hour last Wednesday morning. His barn and team of horses, together with a quantity of hay and grain and a lot of farming tools, were destroyed. He rescued his cows from the burning building.

The fire was discovered about 2 a. m. Mr. Lynch estimates his loss at $1,200, with an insurance of $700 on the property.

—The business men of Westfield are considering a proposition from a carriage company to locate in that place.

ADMINISTRATRIX'S NOTICE.—Letters of administration on the estate of JOHN BOATMAN, late of Delmar township, Tioga county, Pa., deceased, having been granted to Mrs. Rachel Boatman, of Delmar, Pa., by the Register of said county, notice is hereby given to all persons indebted to said estate to pay the same at once and all persons having claims against said estate are requested to present the same without delay to the undersigned.

MRS. RACHEL BOATMAN, Administratrix.
Wellsboro, Pa., R. F. D. No. 6.
March 15, 1906-6t.

The Gazette.

WELLSBORO, PA.

THURSDAY, MARCH 15, 1906.

FRANK CONEVERY, Editor and Proprietor.

POLITICAL ANNOUNCEMENT.

The following named person is announced as a candidate for the office specified below, subject to the decision of the Republican voters of Tioga county at the primary election:

FOR SHERIFF,
WILLIAM H. MILO, Knoxville.

NEXT Saturday won't be a legal holiday; but the birthday of good St. Patrick is always remembered by Irishmen everywhere, and by all friends of Ireland.

FOUR women have applied for pensions as the widow of a Civil War veteran who recently died in Rhode Island. The defunct hero appears to have been most bigamously patriotic.

A MEETING of the Democratic County Committee will be held at Glenn Hall in Wellsboro on Monday, April 2d, for the purpose of electing a Chairman, fixing a date for primaries and for the transaction of any other business that may properly come before it.

A NEW YORK Supreme Court decision denies the right of the Supreme Council of the Royal Arcanum to raise the rates or in any way change the assessments of a member from what they were when the member was admitted into the order. A similar decision has been handed down in a case in which the Knights of the Maccabees were interested. It begins to look as if the members of these orders who have been arrayed against the increased rates will ultimately triumph, as they should.

THE REPUBLICAN BELIEF.

It Stands For Much or Little, Something or Nothing.

The Republicans are so rattled these days that you can find a faction of them that stand for most any old thing. Why, Jack Webster Davis says he has always been a Republican. There are gold Republicans and silver Republicans; some are stand patters, others revisionists; a few want currency reform, the many want any kind of currency they can lay their hands on. The rank and file are honest, but most of their leaders are grafters. One faction wants protection against the Philippines, another faction wants free trade to come in free, tariff, shell and toothpick; some are for Shoot and the Hollister home for Mormon voters, others are for kicking him from the senate as an example of the [illegible] most of them crave an honorable place and will vote only for the candidate who will promise them a big job. Others would stand by Roosevelt for themselves or friends, while others are [illegible] Some [illegible] believe in the Yonge Guards, many are ready [illegible] that the new doctrine of Roosevelt [illegible]

Some few believe in the right of [illegible] shop and say a laborer should work from sunup to sundown; there are others who believe in municipal ownership, but most of them believe in skinning the municipalities.

Of Santo Domingo, Venezuela, China and Cuba most of them do not know what to think, and the balance don't care: all claim to be protectionists, but many want free hides, free coal and reciprocity; all sling Republican politicians are for Roosevelt as long as he has offices to give away, but most of them are secretly making [illegible] his policies; some are for ship subsidy and the old flag and an appropriation, the balance care for subsidies if themselves or their friends can get the benefit; a few believe that the trusts are plundering the people, but none of them has ever done anything to stop the plundering. They are [illegible] about the result of the election may fall, and most of them [illegible] vote for anything they [illegible] renomination and election.

Before all things these [illegible] declare, it is necessary to believe the Republican faith which stands for tariff fostered trusts, blocking the insurance investigation, [illegible] in return for favors [illegible] scandals in all departments of the government and grafting in general without end.

Such is the Republican belief, and that voter is a sucker who can't find something to please him.

Senate Its Own Boss.

The St. Louis Republic, a stanch thinker with the "insurgents" proposes this: "In the senate the omnibus statehood bill will receive treatment different from that by which it was railroaded through the house. The senate is its own boss, and it is not governed by Reed rules."

The Iowa Idea.

The Washington Post (Ind.) points out that "with the Hepburn rate bill which bid for passage by the house and the Dolliver rate bill on the ways in the senate committee, it looks as if there might be something more than patronage in the Iowa idea."

Breathing Easier.

The books of the Mutual Life Insurance company are missing, and the supposition is that if audited they would disclose greater graft than has already been exposed. The Republic [illegible] breathing easier [illegible]

APPALLING DEATH LIST.

Number of Victims of French Mine Horror Over 1,200.

State of Oklahoma—Cattle Cheap, Beef High—Miss Anthony Dead—Jerome's Two Libel Suits—End of Hooker Case—Battle In Jolo—Verdict Against Ladies' Home Journal.

The latest reports from Courrieres, France, as to the approximate number of the casualties in the great mine disaster there on Saturday, give the figures at between 1,200 and 1,300. It is probable that the exact number of those dead will never be known, owing to the fact that many bodies, probably, were destroyed by fire which raged throughout the mine.

The three shafts are guarded by military, and the rescue work is being continued. There is little hope, however, of getting out any of the miners still below alive, or even of recovering the bodies. The funerals of the victims of the disaster were held Sunday. Those who were burned or mutilated beyond recognition will be buried together and a monument to commemorate their death will be erected over the spot by public subscription. All the public buildings and most of the houses of the town are draped in black.

M. Dehaynite, millionaire coal merchant and leading authority in France on the subject of mine construction, in an interview on the disaster, said: "The catastrophe marks the collapse of the scientific mining theory, alleging that protection is furnished by joining the galleries to allow means of escape. With the old system of single or double galleries disasters are limited to 200 or 300 casualties at the most, whereas the modern idea of connecting all the galleries rendered the holocaust possible. Courrieres is noted as the most scientific mine in France, and it was the scene of the greatest catastrophe."

An Additional Disaster.

An additional disaster following Monday upon the terrible calamity [illegible] the village of Courrieres, France, on Sunday has cast its shadow over the [illegible] town. A [illegible] said to consist of men who [illegible] for the purpose of [illegible] the [illegible] who perished on Saturday [illegible] lives in the [illegible] descended in spite of the [illegible] being [illegible] further short.

Death of Susan B. Anthony.

The long and eventful life of Susan B. Anthony closed at Rochester, N. Y., at 12 o'clock Tuesday morning. The end came peacefully. Miss Anthony had been unconscious practically all of the time for more than 24 hours and her death had been almost hopelessly expected since Sunday, only her wonderful constitution kept her alive.

Miss Anthony was taken ill while on her way home from the national suffrage convention in Baltimore. She stopped in New York where a banquet was to be given Feb. 20 in honor of her 86th birthday, but had an attack of congestion on the 18th and hastened home.

Pneumonia developed after her arrival home and on both lungs became involved. After that she became weaker by the moment and showed an alarming weakness. Last Monday evening she seemed to sink into a state of coma, from which she roused for a short time the afternoon of her death, when she sank into deep unconsciousness. From this time on almost the only sign of life manifested was the feeble beating of the pulse and labored breathing.

As a woman suffragist Miss Anthony was the leader of leaders for more than half a century. Born in Adams, Mass., Feb. 15, 1820, she began her career as a teacher, but from the age of 30 was prominently identified with the temperance cause. She was also an active worker in the temperance and anti-slavery causes. Since the war her life has been entirely devoted to woman suffrage, and for years she has been the honorary president of the National Woman Suffrage association. She has also published a history of the movement in four volumes.

Jerome's Two Libel Suits.

District Attorney Jerome of New York county has brought two libel suits for $10,000 each, one against the New York American and the other against the New York Evening Journal. The suits were filed in the supreme court and the complaint says they are based on editorials in the papers named in the issues of March 8. The editorial in The Evening Journal dealt with contributions which it alleged had been made to Mr. Jerome's campaign fund during his recent contest for renomination as district attorney. The editorial in The American was a criticism of Mr. Jerome's alleged attitude in the case of a man named Tillinghast who confessed to jury irregularities in the interest, he claimed, of a local street railway company. Tillinghast is now serving a sentence on the strength of his confession.

Cattle Cheap; Beef Higher.

A comparison of the farm prices of cattle and the wholesale prices of beef suggests ground for speculation. On the first of January every year, from 45,000 or more different sources of information scattered throughout the entire country, the department of agriculture ascertains the farm or ranch prices of cattle and other live stock and strikes an average.

It is a rather singular fact that the price of beef cattle as reported on the 1st of January was $15.08 per head, is lower than it has ever been since the records were kept.

The lowest mark ever reached in the price of ranch cattle before 1905 was in 1894, when the average touched $17.55 per head.

The price of steers per 100 pounds at the Chicago stockyards has depreciated somewhat in sympathy with farm values, but the price of fresh beef in the wholesale market at New York has continued to rise. There must be some reason why the value of beef on the farm should go down so rapidly and in the market it should go up so rapidly, but the statisticians at the Agricultural department are not able to make it clear.

A Hot Fight in Jolo.

In an engagement in the Philippines 600 outlaw Moros were killed in the crater of the precipitous volcano, five miles from Jolo. The Americans lost 18 killed and 52 men wounded, including Captain Rivers of the Fourth cavalry, Lieutenant Agnew of the Sixth infantry, Lieutenant Gordon Johnston of the signal corps, Ensign Cooke, commanding the Pampanga, and Captain White of the constabulary.

The attack was under the immediate command of Colonel Duncan of the Sixth infantry. The fighting lasted two days among the lava ridges, which had been strongly fortified by the Moros. Artillery had to be hoisted by means of ropes up the last 500 feet at an angle of 60 degrees. General Wood highly commends the work of the troops.

Senate Bill For One New State.

The senate passed a bill for admission of a new state of Oklahoma to be composed of Oklahoma and Indian Territory. It was the house joint statehood bill with all the provisions relating to Arizona and New Mexico stricken out. The motion to strike out was made by Mr. Burrows and it was carried, 37 to 35, after having been lost in committee of the whole by the still closer vote of 35 to 36.

Railroad Rate Bill.

The only visible object on the horizon of the United States senate is the railroad rate bill now on the calendar as the unfinished business, which gives it the right of way over every other subject each day after 2 o'clock.

The only positive predictions that can be made concerning the course of the bill is that during the present week Senator Tillman, who has it in charge, will make a written report upon it, that there will be a number of speeches for and against the measure and that the efforts to amend it will proceed.

Probable End of Hooker Case.

What is regarded the end of the effort to secure the removal of Warren B. Hooker of Fredonia from the supreme court bench in the Third judicial district on the long-discussed charges of improper conduct in connection with appointments and rental transactions concerning the postoffices at Fredonia, Dunkirk and Fort Plain, came Wednesday afternoon when the state assembly, by a vote of 87 noes to 50 ayes, defeated a motion of Assemblyman Tompkins, Democrat, of New York, to take from the judiciary committee his resolution directing that committee to repeat the investigation of those charges.

Nixon Memorial Meeting.

The assembly adopted a resolution postponing to March 27 a Tuesday evening the memorial exercises in memory of the late S. Fred Nixon of Chautauqua, who died last October with the unprecedented record of seven consecutive terms as speaker of the assembly. Lewis E. Carr of Albany, a long time friend of Speaker Nixon and well-known as an orator, will deliver the memorial address.

Operators Reject Propositions.

The week should see a decision one way or the other of the question of a strike of coal miners in both the anthracite and the bituminous fields. The operators having sent to the miners their reply to the demands of the United Mine Workers of America, if they reject the propositions of the anthracite workers, the miners will probably go into conference immediately.

Former Senator Green Acquitted.

[illegible] of New York who has been on trial in the district supreme court at Washington for more than two weeks on charges of conspiracy to commit an offense against the United States and to defraud the government in connection with sale of automatic recording clocks to the postoffice department was acquitted by a jury.

Resignation of Rouvier Ministry.

Like a bolt from a clear sky the Rouvier ministry was defeated in the French chamber of deputies Wednesday night and immediately resigned.

The cabinet crisis comes at a most dramatic moment, when the Franco-German contest has reached a decisive stage, at least over an important advance in power on the Algeciras conference and European affairs.

Verdict For Pierce Medical Company.

Sixteen thousand dollars damages was the award announced by the jury at Buffalo, after hearing the World's Dispensary Medical association's libel suit against the Curtis Publishing company of Philadelphia.

The plaintiff sued for $200,000 and is dissatisfied with the verdict. It will appeal.

New Bridge Out of Line.

Irwin, March 14.—Reading a figure 5 for a 3 on blue print plans for the 550-foot steel bridge between Irwin and West Irwin on the Trafford City extension of the Pittsburg, McKeesport and Greensburg trolley line proved a costly mistake for the builders. Working on the former figure, huge concrete piers were put down to support the superstructure. The mistake was not discovered until the west section of the bridge had been finished. Engineers found that the bridge was two feet out of line. To remedy the mistake false work was erected under the finished portion of the structure and it was raised.

Arrested by His Victim.

Oil City, March 14.—John Krajewski, a Pole suspected of having robbed Frank Keilb, a fellow countryman, of money and valuables amounting to $50, was brought here from Dunkirk, N. Y. The arrest was made by Keilb himself, who secured a warrant, showed a pair of handcuffs and assumed the role of a detective upon the man through Western New York. Keilb bluffed his prisoner into coming to Oil City without requisition papers.

COUNTY AFFAIRS.

Summary of Local Events and Happenings of the Week.

—Westfield is first in the field to announce a celebration on the Fourth of July.

—William Haner, of Marshlands, has gone to Lowman, Minn., with a view of locating.

—M. S. Knowlton has been appointed mail carrier of route No. 1 at Covington, to take effect April 1st.

—William Putnam, of Westfield, and Miss Rose Lippincott, of Gaines, were married at Addison, March 5th.

—The maple sugar season, owing to the early budding of the maple tree, will undoubtedly be short this year.

—L. D. Gillett, of Blossburg, and Miss Nellie Fessenden, of Roulette, were married at Lawrenceville, March 3d.

—C. E. Carpenter, of Middlebury, has gone to New York city, where he has secured a position as railroad foreman.

—Evan Cole, of Antrim, who recently enlisted in the regular army, is now stationed at Fort Slocum, New York.

—H. L. Stevens, of Hammond, has gone to Michigan, where he has secured employment with the Tioga Lumber Company.

—Robert Brownlee, of Lycoming county, a former resident of Stony Fork, is a candidate for Representative from that county.

—Patrick Garvey, of Morris Run, died at his home in that place last Friday afternoon. He is survived by his wife and nine children.

—It is rumored that Covington will soon have a hotel, to take the place of the one recently closed because the proprietor failed to secure a license.

—A Coudersport girl answered an advertisement in a Chicago matrimonial paper and was surprised to learn that the advertiser was her brother.

—The engagement is announced of Earle E. Field, a merchant of Tioga, and Miss Leah H. Atherton, of Knoxville. The event will take place the latter part of next month.

—E. B. Mills, of Watkins, N. Y., a former well-known resident of Middlebury Center, will move his family to Los Angeles, California, where he has been located for several months.

—Prof. L. W. Hallett, of Millerton, has been notified by the officials of Syracuse University that the contract for engrossing the diplomas for that institution has been awarded to him.

—John A. King, who has been employed as night operator at the Central station at Lawrenceville for several years, has gone to Williamsport, where he has secured a position in an express office.

—Tioga's Grange National Bank will be opened for business next month. It will be located in the middle store of the Wickham block, the place formerly occupied by the defunct Wickham Bank, which has a fire and burglar proof vault.

—Mrs. Emma Sebring, wife of Grant Sebring, landlord of the Sebring Hotel at Liberty, died last Saturday morning about 6 o'clock. She was about 37 years of age. The funeral was held on Tuesday afternoon.

—In granting licenses in Centre county last week Judge Orvis laid down some new rules to hotel men, among which was that no whisky was to be sold in bottles, and that they [illegible] on Thanksgiving and Christmas.

—It is said that there are two hundred victims of the cocaine habit in Hornellsville, N. Y. They become more degraded than drunkards and the habit is harder to break than the drink habit. Last week three women, said to have been respectable a few years ago, were arrested for intoxication, and on pleading guilty were sentenced to thirty days each in the jail at Bath.

—There is a great commotion in Washington county, this State, occasioned by the publication of the list of signers to license petitions which contain the names of prominent people and leading businessmen. The latter evidently believe in the Biblical commandment, "Thou shalt not be found out." A great many men in this world will do many things they don't care to have found out.

MINERS DON'T WANT TO STRIKE

Prefer to Accept Operators' Offer—The Earnings of Twenty Men.

Lansford, Pa., March 14.—A careful canvass of the miners in the southern anthracite region, and particularly the Panther Creek Valley, reveals the fact that they are almost unanimously opposed to a strike and favor an effort to accept the proposition of the operators to continue the present arrangement for three years under the conditions imposed by the anthracite strike commission.

The miners as a whole are more prosperous today than they have ever been before. The deposits of banks in this section have increased 20 per cent the past three years, while hundreds of miners have either bought or erected homes.

Some idea of what the miners are earning at present was given when the earnings of 20 miners selected at random for last month were ascertained. These men are all ordinary miners who work an average of from five to seven hours a day.

The earnings of the 20 were as follows: [illegible] $144.75, [illegible], [illegible], $129.29, $1[illegible], $1[illegible].41, $127.18, $128.29, $125.71, $124.15, $126.62, $124.15, $129.38, $121.65 and $127.06.

February was a short month, so that the earnings of these 20 men for that period can be taken as a fair and conservative average of the earnings of the miners throughout the southern region. Contract miners earn as high as $180.00 for two weeks work, while few average less than $70 for the same period.

Staunch union miners admitted today that they would oppose a strike under present conditions.

DOG GUARDS DEAD MISTRESS.

Attacks Two Women and Has to Be Shot by Policeman.

Philadelphia, March 14.—In consequence of a search for a missing neighbor whom they found dead in her home, two Kensington women, Mrs. Mary Fisher and Mrs. Mary Salmon are in a dangerous condition from fright and dog bites, the result of being attacked by a vicious bulldog.

When a neighbor, Mrs. Gassner, failed to appear Sunday, Mrs. Fisher and Mrs. Salmon investigated. Mrs. Fisher entered Mrs. Gassner's room and a bulldog sprang upon her, knocked her down, tore her clothing from her and chewed her arms and body in a frightful manner. Mrs. Salmon also was attacked by the dog.

A policeman arrived but not until the dog had been shot could he enter the room.

Considering Firemen's Grievances.

Philadelphia, March 14.—Unable to adjust their differences at a 10-hour conference held a month ago a committee of firemen of the Pennsylvania railroad on the divisions east of Pittsburg called on General Manager W. W. Atterbury. The grievances which they asked to be adjusted although of a minor nature, were the accumulation of a year. Those grievances are held over again for consideration by the [illegible]

Sunday Drink Proves Fatal.

Bellefonte, Ohio, March 14.—Orr Hughes, failing to obtain whisky in a Jackson drug store Sunday night, waited until the proprietor's back was turned and taking a bottle from the shelf drank heartily. It was carbolic acid and he died within an hour.

Very Cheap Traveling.

Beginning February 14th, and continuing daily until April 6th, the Erie railroad will sell Colonist tickets to all Pacific Coast and numerous interior points at very low rates, which will be quoted and all other information given by calling on or writing any Erie ticket agent, or J. H. Webster, D. P. A., Elmira, N. Y.—Feb. 8-tf.

NOTES ABOUT NOBLES.

King Edward carefully preserves programmes of the proceedings in which he has taken part.

That arbiter of musical understanding and taste, the German emperor, has informed the director of the Berlin opera that Verdi's "Othello" does not interest him, and need be seldom produced.

The earl of Halsbury, who on the change of ministry resigned the chancellorship of England, retires at the advanced age of 80 years on a pension of $25,000, after he had received in 16 years $1,000,000 in salary.

Queen Alexandra is urging the women of the English aristocracy to form a British Red Cross society. The ladies of England may perhaps on future battlefields be found wearing the insignia of the Alexandra society upon their arms instead of the red cross of Switzerland.

Queen Maud of Norway will need little tuition in the speech of her new realm, for she took to the Danish language with instinct during her girlhood. It is said that the difference between the two languages, both in vocabulary and pronunciation, are merely dialectic.

The czar's oldest daughter has one of the finest collections of toys in the world, which have been sent to her from Paris, London and Berlin. The prince and princess of Wales generally give their children sensible and inexpensive toys, and when the little ones weary of them they are sent to one of the children's hospitals.

The earl of Elgin has a name known half over the world. His father was viceroy to China and a most successful viceroy of India; his grandfather was ambassador at Constantinople and collected the world-famous Elgin marbles. The present peer has been treasurer of the household, commissioner of works and finally a most tactful and popular viceroy of India. He was president of the royal commission which was appointed to report on the war in South Africa.

BRIGHT BABES.

Visitor—How is it that you can only count up to ten, Tommy?

Small Tommy—'Cause that's all the fingers I've got.

Teacher—What is the little boy called who has never known a mother's care?

Small Boy—An incubator kid, ma'am.

"I wonder what's the matter with my eye," said Elmer. "It hurts every time I rub it."

"Then don't rub it," said his mother.

"But," said Elmer, "how can I tell whether it hurts if I don't rub it?"

Little Nellie—Oh, mamma, I met a little girl to-day who never saw a cow.

Mamma—Indeed! Who is she?

"I don't remember her name; but she said her papa was a milkman."

Small Dorothy was visiting her grandparents in the country, and seeing a quantity of feathers scattered over the henyard, said:

"Grandpa, you ought to do something to keep your chickens from wearing out so."

One day when it was thundering very loud, Willie, aged five, said: "Mamma, I guess the angels must be cleaning house."

"Why do you think so, dear?" asked his mother.

"'Cause," was the reply, "I hear them moving the furniture around."

JUST FOR A SMILE.

Miss Antique—The man I marry must be a hero.

Miss Pert—There's no doubt about that.

He—How do you like my winter suit; good fit, don't you think?

She—Worse than that, my dear; a perfect convulsion!

"She is one of the best informed women in town."

"No wonder; she's got the snoopiest servant girl in the whole place."

Little Toto—Mamma, may I go out and look at the eclipse of the sun?

Careful Mother—Yes, dear, but be careful not to go too close.

FOOD AND STUDY.

A College Man's Experience.

"All through my high school course and first year in college," writes an ambitious young man, "I struggled with my studies on a diet of greasy, pasty foods, being especially fond of pies and fried things. My system got into a state of general disorder and it was difficult for me to apply myself to school work with any degree of satisfaction. I tried different medicines and food preparations, but did not seem able to correct the difficulty.

"Then my attention was called to Grape-Nuts food and I sampled it. I had to do something, so I just buckled down to a rigid observance of the directions on the package, and in less than no time began to feel better. In a few weeks my strength was restored, my weight had increased, I had a clearer head and felt better in every particular. My work was simply sport to what it was formerly.

"My sister's health was badly run down and she had become so nervous that she could not attend to her studies. She went on Grape-Nuts and had the same remarkable experience that I had. Then my brother, Frank, who is in the post office department at Washington city, and had been trying to do brain work on greasy food, cakes and all that, joined the Grape-Nuts army. I showed him what it was and could do, and from a broken-down condition he has developed into a hearty and efficient man.

"Besides these I could give account of numbers of my fellow-students who have made visible improvement mentally and physically by the use of this food." Name given by Pkg. Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in pkgs.

BUILDING THE GREENHOUSE

What Some Men Will Do to Economize

— Straight Roof Better Than Hip-Roof.

A correspondent of the Rural New Yorker writes that he is going to build a greenhouse to grow plants for early setting without heating. He says he has been told by an expert carpenter that a hip roof would give more heat in early spring than a straight one.

There would be no special advantage in regard to sun heat to be had from building your greenhouse with a

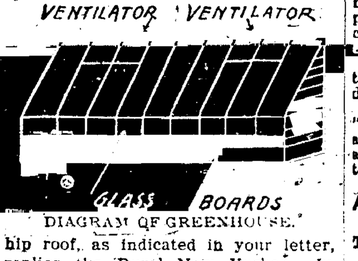

DIAGRAM OF GREENHOUSE.

hip roof, as indicated in your letter, replies the Rural New Yorker. In addition to this, it would probably cost more, owing to the extra labor in construction, and the joints are more likely to prove leaky than those on a straight roof. A straight roof with a rise of about eight inches to the foot is the most practical way to build a greenhouse, though a lean-to house (as the one slope structure is commonly called) would not require so steep a roof unless the front wall were very low. A very light and easily constructed greenhouse may be made after the plan roughly indicated in diagram in which part of the front wall is of glass and part of boards.

THE GOOD ROADS BILL

Has the Sanction of the President, and Sentiment Is Growing in Its Favor.

Three years ago the president of the United States gave his indorsement to national aid in highway improvement, and declared in a public speech that it was help the people have a right to demand of the general government. That was in 1903. Since then the patriotism, intelligence, progressive spirit and business sense of the country has quickened in response, and from one end of the land to the other the good roads campfires have been lighted on hillside and in valley. The actual loss and inconvenience to the country through the lack of decent means of communication between town and country, town and town, in the interior, between the homes of the people and the markets, between the homes and church houses and schoolhouses, is so immense that it cannot longer be borne, and the people are becoming aroused as they have not been on any subject since the close of the civil war. Every thinking person realizes that governmental aid and supervision in road construction is an absolute national necessity. Every thinking person knows that state systems will continue to fall short of adequate remedy for the great trouble of bad roads, as state systems have failed for 75 years past except in two or three of the wealthier states. Some good road work has been done in a few states, notably in New York, a state of great cities, where the city property is taxed with other property, and money is abundant for the purpose. But there are few states able to do what New York can do for highways, and nearly all of the 45 states of the union realize their helplessness in this respect. It does seem as if there should be no hesitation about the enactment of the Brownlow-Latimer good roads bill. It provides for only reasonable assistance in getting the work under way, and certainly if the government can spend money for road building in Porto Rico and the Philippines, as it has been liberally doing, the representatives of the people ought not to deny relief to the states at home. The plan proposed is neither extravagant nor burdensome. It is a plain, practical business proposition which appeals strongly for building in the fifty-ninth congress, and the demand for this legislation is growing stronger all the time. It has, too, the sanction of eminent officials of the government, and if the people continue their demand on congress, the Brownlow-Latimer bill will soon become a law.

Hon. W. P. Brownlow will send copies of the bill and other official literature to any person addressing a request to him at Washington.

TRIMMING BERRY BUSHES.

Some Suggestions for the Thinning Out of the Old Brush—The Time to Do It.

When I began raising blackberries I cut out the old brush as soon as the crop was all picked. But I found this was not the best way, as the wind often breaks down the young plants when nothing is left to support them. Also there is much work at that time, the weather is hot, and the work is disagreeable, as I am wearing thin clothes and get badly scratched.

I now avoid all these difficulties by waiting until winter, says a correspondent of the Farm, Stock and Home. The new plants are so hardened that the wind will not destroy them; I have plenty of time and can put on my heavy coat and gloves and remove the old brush without being scratched. I select a time when the temperature is rising and the ground frozen. I use a short iron hook with a handle about four feet long. Place the hook back of an old stalk about a foot above the ground, then give a quick jerk, and it breaks close to the frozen soil.

Pops for Feed.

The damaged or cull beans that accumulate at bean houses form a [illegible] forage, and is especially adapted to feeding to sheep and dairy cows.

BETTER THAN A CASCADE.

Something More Picturesque Than a Mess of Water Running Over Rocks.

Several years ago William L. Douglas spent a short vacation with some friends in New Hampshire, relates the Boston Herald. The first morning there found him taking his usual long walk. He had heard his friend talking of Wilson's cascade, just four miles from there, so he decided to walk in that direction. He had gone about two miles, when he saw an old man sunning himself in the doorway of a great barn which stood near the road.

"Can you direct me to Wilson's cascade?" he inquired of the old man.

The old man squinted his eyes and took an exhaustive survey of the questioner before he spoke. "Take your first right and follow it till you come to a fork where there's a clump o' blackberry bushes," he said, slowly, "then strike off to the left. Go on till you come to the net cross road, and then bear off to your left again. When you've gone a piece on that road you'll come to Abe Simmons' house. You'll know him because he wears plaid overalls, green and blue plaid, and she makes 'em for him. You can't keep from laughing when you set eyes on 'em, I'll wager."

"Excuse me, but I have only so much time," said Douglas; "will Mr. Simmons direct me to the cascade?"

"I presume to say he can," he answered, "but after you've seen those plaid overalls a little mess o' water running over a little mess o' rocks will seem tame to ye."

AWFUL PSORIASIS 35 YEARS.

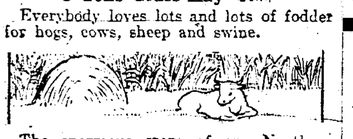
Terrible Scaly Humor in Patches All Over the Body—Skin Cracked and Bleeding—Cured by Cuticura.

"I was afflicted with psoriasis for thirty-five years. It was in patches all over my body. I used three cakes of Cuticura Soap, six boxes of Ointment, and two bottles of Resolvent. In thirty days I was completely cured, and I think permanently, as it was about five years ago. The psoriasis first made its appearance in red spots, generally forming a circle, leaving in the center a spot about the size of a silver dollar of sound flesh. In a short time the affected circle would form a heavy dry scale of a white silvery appearance and would gradually drop off. To remove the entire scales by bathing or using oil to soften them the flesh would be perfectly raw, and a light discharge of bloody substance would ooze out. That scaly crust would form again in twenty-four hours. It was worse on my arms and hands although it was in spots all over my body, also on my scalp. If I let the scales remain on without removing by bath or otherwise, the skin would crack and bleed. I suffered intense itching, worse at nights after getting warm in bed, or blood warm by exercise, when it would be almost unbearable. W. M. Chidester, Hutchinson, Kan., Jan. 20, 1905."

It is strange that the old-looking chap in the bald-head row at the burlesque show is generally the one who always sleeps when he goes to church.

5 Tons Grass Hay

Everybody loves lots and lots of fodder for hogs, cows, sheep and swine.



The enormous crops of our Northern Grown Pedigree Seeds on our seed farms the past year compel us to issue a special catalogue called

SALZER'S BARGAIN SEED BOOK.

Last Resort.

"Doctor, I wish you would come and take dinner with us to-day."

"What for, Throggins?"

"Because I don't relish my victuals, and I want you to tell me whether the fault is with me or with the cooking."—Chicago Tribune.

Speaking from Experience.

"How do you like being civilized?" asked the philanthropist.

"Well," answered the simple child of nature, "civilization is great for the mind, but it is mighty hard on the digestion."—Washington Star.

Never [illegible] that you can put off till to-morrow.

He who finds no cause for gratitude probably causes none.

RHEUMATIC PAINS

Disappear When Dr. Williams' Pink Pills Purify the Blood and Heal Inflamed Tissues.

Rheumatism is a disease of the blood, caused by the failure of the body to cast off certain poisons. External applications are of use only in securing temporary relief from pain—the cure for rheumatism lies in purifying and enriching the blood.

Mrs. Frederick Brown, of 40 Sumpter street, Sandy Hill, N.Y., was a sufferer from inflammatory rheumatism from the time she was sixteen. She says: "It first appeared in my knee joints, then in my hips and waist. It became a regular thing that I would be laid up all winter. The rheumatism affected mostly my hands, hips, feet and shoulders. My hands were all puffed up and my feet became deformed. I lost my appetite, couldn't sleep and sometimes I was compelled to cry out, the pain was so intense.

"For several winters I was under the doctor's care and spent much money—it seemed no [illegible] for a permanent cure. I was confined to my bed off and on, for weeks at a time. My limbs swelled dreadfully at times and I was [illegible] to nothing.

"In the spring of 1904, upon the advice of a friend, I began to use Dr. Williams' Pink Pills. At that time I wasn't able to do anything and could barely eat enough to keep alive. I felt a change for the better in about a month. I began to eat heartily and I suffered less pain. Of course I kept on the treatment, using care in my diet, and in about three months I was cured. I am entirely well today and do all my own work."

Dr. Williams' Pink Pills are sold by all druggists or sent postpaid on receipt of price, 50 cents per box, six boxes for $2.50, by addressing the Dr. Williams Medicine Co., Schenectady, N. Y.

Popular Line to the East.

The splendid passenger service of the Nickel Plate Road, the care and attention shown passengers have made it a favorite with the inexperienced as well as those accustomed to travel. Every feature necessary to the comfort and convenience of the passengers, especially ladies traveling alone or accompanied by children, is provided. Colored Porters in Uniform are in attendance to serve the wants of all and to see that cars are kept scrupulously clean. Pullman Sleepers on all trains, and an excellent Dining service, serving Individual Club meals or a la Carte at moderate cost. When traveling East purchase your tickets via the Nickel Plate Road. All trains depart from the La Salle St. Station, Chicago. For full information regarding tickets, rates, routes, sleeping car reservations, etc., call on or address J. Y. Calahan, General Agent, No. 111 Adams St., Chicago, Ill.

If a man should try to obey all the laws on the statute books he might escape the penitentiary—by getting into the lunatic asylum.—St. Louis Globe-Democrat.

To Clean Oil Paintings.

Many are not aware that oil paintings may be successfully cleaned by an amateur. Dip a cloth in tepid Ivory Soap suds and wring almost dry. Go over the picture very carefully until dirt and fly specks are removed, then apply boiled linseed oil with a flannel cloth.

Rules of Football.

The best and worst features of campus sport are found most sharply defined in football. Now the fact seems often overlooked that the average American youth is both honest by instinct and keen for fair play. He enters college with a normal fondness for outdoor pastime. As one of his first impressions, writes Ralph D. Paine, in Century, he learns that the football team is a "complicated machine of infinite exactitude," from which the youth of average physical equipment is well-nigh barred. Then he discovers that the kind of game played by a few picked heroes is so difficult and exhausting that the [illegible] months' season suggests [illegible] far more than sport. He grasps the fact that rowing is a pursuit which demands a long and arduous training period in order to drill eight men into absolute harmony of action, and he does not see how working for the crew could be made any easier. But football, in bracing autumn weather, looks as if it ought to offer a fair field to any strong and plucky youth willing to endure hard knocks. Really there ought to be much fun in it, he thinks. He finds, however, that players, trainers and coaches are thinking of nothing else than welding together eleven brawny giants into certain battering-ram formations, the impetus of which shall be more deadly and lasting than that of a rival mass of beef and muscle on a certain afternoon three months distant. The freshman, standing in disconsolate idleness on the side lines, perceives also that in a university of perhaps two or three thousand students it is not considered possible to assemble eleven men of the standards of physique and intelligence required to form a "championship team," wherefore it is necessary to recruit among the preparatory schools and to throw out dragnets for promising material among the smaller colleges. And this young ster of ours may be wise enough to glimpse the fact, which has eluded most of his perplexed elders busy with making more "rules," that the problem of keeping football clean in school and college rests not so much with the player as with the game itself. In other words, a pastime which is so hard to play well, which contains so few of the essential elements of sport, and which cannot find its raw material among thousands of willing young men within its own bounds, is certain to breed perverted ideas of the spirit and object of normally conducted athletics for the benefit of the greatest possible number. "Professionalism" in football would be shorn of its temptation to "win at any cost" if the game were such as the average student could learn to play well and enjoy.

Clothes and the Man.

"Clothes were originally worn for warmth and protection against the weather. But to-day that is only one of their uses," remarks a philosophical tailor. "A man's clothes not only may denote his rank in life; they are often a very clear index to his character, and as such, interpreted by men who know the world. Again, your clothes may not only inspire confidence in those you meet; they can give you a good deal of confidence. How much easier it is to face the ordeal of a public appearance if you know you are well dressed. In that sense you may actually derive courage from your clothes. It has long been a favorite method of mine that the elaborate manners, the flowery modes of speech, and the graceful movements of the eighteenth century were really due to the elegant clothes worn by our ancestors. [illegible] style of their garments demanded such things!"

Dr. W. J. Brady, of Iowa City, complains that life has become a nightmare of noise, canned food, football and indigestible breakfast food. We dodge automobiles, have to contend with the janitor and know no rest and peace short of the grave. Let's get back to the old farm where the cow is. The science of life as interpreted by the cows leads to peace and restfulness beyond measure. The cow never suffers from nervous dyspepsia or prostration. She rests after eating and chews the cud of peace and contentment. House rent, gas bill, the telephone, storm sash and collecting books that she cannot read are forms of insanity that the cow passes up.

A warning to borrowers who do not pay up is inherent in the communication of a New York man who says that about four years ago he lent 60 cents to a friend who has steadily refused to pay it. "Since then" he writes, "he has lost his job and is compelled to eke out a miserable existence by writing for the Sunday papers. His mother has to take in washing, his sister had to take a job in a telephone exchange. His father failed in business and skinned all his creditors, and his brother went crazy and imagines he's the ocean at Coney Island."

Speaking the other night at Manchester, Winston Churchill, who is 34 years old, said: "In politics a man may be described as a young man of promise until he is past the age of 65. Youth less mature is often the object of hostile criticism."

An Iowa woman, angry with her husband, snatched a framed motto "God Bless Our Home" from its fastenings and smashed it on the bald head of her husband. It doesn't seem to have been effective on the wall.

After he has extracted the brutality from the football games, if the president could mitigate somewhat the rancity of the subsequent celebration he would be giving civilization still an other [illegible]

You may feel more cheerful about paying your insurance premium if you will think how many people are [illegible]

SHERIFF'S SALES.

BY virtue of writs of vendition exponas, and fieri facias, issued out of the Court of Common Pleas of Tioga county, Pa., I will expose to public sale at the Court House in Wellsboro, Pa., on MONDAY, MARCH 26th, 1906, at 2 o'clock p. m., the following described premises, in Tioga county:

1. All that land in the boro of Blossburg, known and designated as lot No. 8, in block No. 44 as by reference to the map of the boro of Blossburg made by J. D. Washburn and D. H. Smith Dec. 3, 1885, now on file in the Recorder's office in Tioga county, will more fully appear, said lot being bounded on the north by lot No. 9 in said block; south by ——— street; west by lots Nos. 7, 6, 5, and part of lot No. 4 in said block; and on the east by lots Nos. 16, 15, 14, and part of lot No. 13 in said block No. 44, and being a part of the same premises conveyed to John Green by deed from Curtis Parkhurst, et al., bearing date Nov. 15, 1871, and recorded in the Recorder's office in Tioga county in deed book No. 30, at page 229. The said heretofore described tract of land being the same premises of which the said John Green, deceased, became in his life-time, lawfully seized, in fee, and being so therefof seized, died intestate, leaving a widow and seven children parties hereto of the first part, to whom the same, by the laws of Pennsylvania relating to intestates, did descend and come. All improved with a framed dwelling house with a kitchen attached, a framed barn and other outbuildings, some fruit and ornamental trees and a good well of water thereon. To be sold as the property of Barney Kritchesar, suit of John Grycek.

2. ALSO—A lot of land in Union township, beginning at a post in the line of lands of Lewis Cooper; thence north, 86 degrees west, 45½ perches to a hemlock stump; thence south 83 degrees west, 39 rods to a hemlock stump; thence north, 86 degrees west, 98 perches to a post; thence north, 4 degrees east, 65 2 rods to a post; thence south, 86½ degrees east, 169 perches to a post; thence south, 3½ degrees west, 60 perches to the place of beginning, containing 69 acres, more or less, and being same property conveyed by Amy Hawk to Cornelius Hawk, by deed dated Feb. 27, 1902, and recorded in Tioga county in deed book No. 117, page 501, excepting and reserving however, from said described tract a lot of land containing 2 acres and 61 perches, conveyed by Cornelius Hawk to Ezra Hawk, by deed dated May 1, 1903. All improved with a framed dwelling house, with kitchen attached, framed barn, with sheds attached, and other outbuildings, some fruit and ornamental trees thereon and well watered. To be sold as the property of Cornelius Hawk, suit of Amy Cosgrove, formerly Amy Hawk.

3. ALSO—A lot of land in Delmar township, beginning at the northeast corner of land now or formerly of John Cole; thence by lands surveyed for Jefferson Ellis, east 34½ rods to the line of land formerly of Horace Dort; thence south 26 rods to the corner of said Dort's land; thence by said Dort, east 50 rods; thence by lands now [illegible] the line of lands now or formerly of John Morrow; thence by said Morrow and lands of the estate of Thomas Robertson, deceased, west 84½ rods to the corner of said Cole lot; and thence by the same north 95 rods to the place of beginning; containing 41½ acres of land, more or less, being part of Warrant No. 1542, and the same land conveyed to William Putman by Mary A. Kress and William E. Kress, her husband, by a deed dated August 14, 1903, and recorded in Record Book of Deeds, Vol. 98, page 191, etc. About 10 acres improved, and the rest wild land, and a good spring of water located thereon. Late the estate of the said Harriet Putman, widow, Henry Putman, John Putman, Mary Kilbourn, Louisa Beach and Esther Dimmick, children and heirs at law of Wm. Putman, deceased.

4. ALSO—A lot of land in the township of Jackson; beginning at the southeast corner of lot No. 9 of H. H. Dent's lands in Jackson township; thence at a stake and stones; thence north 87½ degrees west, 17 chains and 94 links to a stake and stones; thence north 33 degrees east, 35 chains and 87 links along a line made Nov. 18, 1875, by A. H. Griswold, a surveyor, to a post and stones; thence south, 82½ degrees east, 17 chains and 75 links to a stake and stones in the last line of the lot; thence south 3 degrees west, 35 chains and 87 links to the place of beginning; containing 61½ acres, more or less. Being the same lot of land conveyed to John S. Kelly by Miles O. Dickinson and wife by deed dated the 16th day of March, A. D. 1887, and recorded in Tioga county in deed book vol. 82, at page 428. About 50 acres improved, with a frame house, frame barn and other outbuildings and fruit and ornamental trees thereon, and well watered. To be sold as the property of John S. Kelly, suit of Annie E. Holcomb.

5. ALSO—A lot of land in Westfield township, bounded on the north by the north line of Westfield township and by lands of Jacob P. Bush; on the east by lands of Hezekiah Palmer, Jacob P. Bush, the North Fork public road, the Cowanesque Valley Agricultural Society and lands of L. B. King; on the south by lands of said Cowanesque Valley Agricultural Society and L. B. King, and on the west by lands of L. B. Seamans, formerly A. S. Seamans, the Crance Brook public road and land of John M. Bush; containing 95 acres and 30 perches of land, more or less. About 60 acres improved, with a two-story frame house, three barns and other outbuildings thereon, including a tobacco shed and well watered. To be sold as the property of Sarah Bush, John M. Bush, Samuel J. Bush, Jacob P. Bush and Edwin M. Bush, suit of L. E. Armsby.

6. ALSO—A lot of land in Delmar township, bounded on the north by lands of C. L. Wheeler; on the east by lands of Clara Wilson and lands of Geneva Hildreth; on the south by lands formerly of John M. Butler, deceased, now Amanda Butler, and on the west by lands of S. S. Strauber, formerly lands of Pharez Houghton. Containing 57 acres of land, more or less. Nearly all improved; some fruit and ornamental trees thereon and well watered.

7. ALSO—Another lot of land in Delmar township, bounded on the north by the public road known as the Campbell road; on the east by lands of Geneva Hildreth; on the south by lands formerly of John M. Butler, deceased, now Amanda Butler, and on the northwest by said Campbell road; containing 1 acre of land, more or less; all improved and well watered.

8. ALSO—Another lot of land in Delmar township, bounded on the north by lands of Charles G. Butler, being the above mentioned land; on the west by the public road leading from Wellsboro to Stony Fork; on the south by lands of Amanda Butler and on the west by the First Baptist church cemetery; containing 1 acre of land, more or less, reserving from the last lot a right of way from said public road to said cemetery. All improved with a framed dwelling house, with kitchen attached, two framed barns, with sheds attached, some fruit and ornamental trees thereon and well watered. To be sold as the property of Charles G. Butler, suit of James A. Bogue, use of Joshua H. Gorham.

9. ALSO—A lot of land in the boro of Blossburg, known and designated as lot No. 7, in block No. 41, in said village of Blossburg, and lying on the eastern side of Morris street, being about 79 feet in front on said street, and about 40 feet in depth as will appear by reference to the map of said village of Blossburg made by D. H. Smith, surveyor, and J. D. Washburn, draftsman, Dec. 22, 1885, and being the same lot of land conveyed to the said Bridget Kiely by deed from James Kirwan and Mary Ann, his wife, bearing date Nov. 5, A. D. 1892, and recorded in the Recorder's office in the county of Tioga, in the fourth day of May, A. D. 1893, in deed book vol. [illegible] page 3[illegible], and being also the same lot of land conveyed by the said Bridget Kiely to Andrew Sowakoski, by deed dated the 26th day of May, A. D. 1898, and recorded in the Recorder's office of Tioga county, in deed book No. [illegible] page 22[illegible], etc. All improved with a framed dwelling house, with a kitchen attached, some fruit and ornamental trees, and a good well of water thereon. To be sold as the property of Andrew Sowakoski, vs. Ada Mary Ann Nowakowski, suit of A. L. Smith, trustee for the use of Charles L. Tracy.

10. ALSO—A lot of land in Gaines township, bounded north by lands formerly of Jason E. Smith, east by lands formerly of H. Wood, south by lands of Silas B. Mattison, and west by Pleasant low water mark. Also beginning at a point on the east bank of Elk run at low water mark at the southwest corner of the said Jason E. Smith and Hodge's land along said run 80 rods more or less, thence along the foot of the east bank southwesterly following the foot of said bank to the southeast corner of the Jenkins lot, thence along the west line of land formerly of J. H. Wood northerly to the northeast corner of the S. B. Mattison lot, thence by said lot west about 11 rods to the east bank of Elk Run, thence along said bank at low water mark by the edge of the water down said stream to the place of beginning; containing 1 acre and 10 perches, more or less, and being the same land conveyed by the said Richard L. Wood and wife to the said Ida Hurlbert by deed bearing date of July 1, 1902. Improved with a [illegible] kitchen attached, a framed woodshed and other outbuildings, some fruit and ornamental trees thereon and well watered.

11. Also—Another lot of land in Gaines township, bounded on the north by the public highway leading from the so called Germania road past the residence of Joshua Bermaner and others, on the east by lands of Joshua Bermaner, and on the south and west by lands formerly of Wm. Radde, deceased, containing 25 [illegible] house, frame barn, other outbuildings, [illegible] orchard of fruit trees, and well watered; being land known as the John Farley lot. To be sold as the property of Ida Francis Hurlbert, otherwise Ida Hurlbert and Fred Hurlbert and Fred Hurlbert, suit of Richard L. Wood.

EDWARD B. DORSETT, Sheriff.

WANT A NEW EXECUTOR.

Mrs. Todd's Daughter and Grandson Contest Her Will.

Lawyer Lockwood, the Present Executor, Identified a Letter He Said He Had Written Asking Manager of Mrs. Todd's Apartment to Have a Duplicate Key Made.

New York, March 14. — A contest over the will of Mrs. Margaretta Todd, the aged and wealthy woman whose mysterious death near Philadelphia last fall has never been fully explained, was begun here. Mrs. Todd's body was found on the railroad tracks and there was evidence that the body had been carried there after death in order to conceal foul play.

In the will contest Mrs. Todd's daughter, Mrs. Frank Tousey, and her grandson, Milton Berelsheim, are attempting to have a different executor appointed in place of Ingersoll Lockwood, a lawyer who now fills that position.

Mr. Lockwood while on the witness stand identified a letter which he said he had written. It was dated July 8, 1905, and was addressed to the manager of the apartment house in which Mrs. Todd lived. Lockwood explained that he referred to a man named Heal, who frequently visited Mrs. Todd, when he wrote: "That little son of a gun is a dirty little beggar. She promised me faithfully not to leave him a cent. If he makes love to her heaven only knows what she will do. He is a shallow rogue; continue to play him. Have a duplicate key made to her apartment."

Previous to the introduction of this letter Lockwood had testified that he did not have a key made for Mrs. Todd's apartment, but said that he did tell the manager of the apartment house that it was unsafe for the old lady to live all alone in her apartment and suggested that it might be well if he provided a duplicate key.

A reporter for a morning paper testified that in an interview with Mr. Lockwood, Lockwood told him that there were two wills, one made in 1902, the will now being contested, and another made in 1903.

On cross-examination witness could not remember whether Lockwood told him that he had the wills or that he knew there were two wills.

MURDER CONVICTION REVERSED.

Court of Appeals Grants a New Trial In Case of Jacob Huter.

Albany, March 14.—The court of appeals has reversed the judgment of conviction and granted a new trial in the case of Jacob Huter, convicted in New York city of the murder of a police officer named Enright. Huter was detected in the act of burglarizing a barber shop on March 20, 1905. He was found by the jury to have shot the officer while escaping from the premises.

The conviction is reversed and a new trial ordered mainly on the charge made to the jury by the trial judge, who instructed the jury that if they found that the officer was killed by the defendant in an endeavor to escape from the premises their verdict must be murder in the first degree.

The court of appeals holds that the judge failed to call attention to section 218 of the Code of Criminal procedure, which defined resistance to arrest as assault in the second degree. The defendant was outside the premises when the shooting occurred. The facts involved are not passed upon, the decision hanging upon the one question whether the shooting took place during the act of burglarious entry or after the alleged burglar had left the premises and in resistance of arrest.

Vatican and the French Cabinet.

Rome, March 14.—The vatican has been following the French cabinet crisis with the keenest interest, but its solution is considered to complete the disaster to the Catholic church in France. A prominent prelate exclaimed: "We have fallen from the frying pan into the fire." The Vatican authorities received a despatch saying the composition of the cabinet would not be officially announced until today, being yesterday being the 13th day of the month was considered to be unlucky. A few hours later, however, when this information was conveyed to him, Pope Pius exclaimed: "Bad days are preparing for the dear dear Catholics in France."

Greene and Gaynor Trial.

Savannah, Ga., March 14.—Yesterday's sessions of the United States court in the trial of Greene and Gaynor for alleged conspiracy against the government were devoted to continuance of the testimony of E. J. Johnson, expert accountant, relative to the division of the alleged spoils. It is probable that this testimony will be finished today, when District Attorney Erwin and United States Marshal White are expected to take the stand to testify regarding the defendants' absconding to Canada, the efforts made to secure their extradition and their eventful return to Savannah for trial.

Guarded as He Weeps.

Coshocton, O., March 14.—Because of the fatal illness of Junior William McCune's 2-year-old daughter the murder trial of Ben Dickerson has been delayed. Court will probably not convene before the last of the week. The juror hurried to the bedside of his baby and is accompanied by Deputy Sheriff Wiggins, who will shadow him all the time he is home.

President Recognizes Dick.

Washington, March 14.—The president in nominating Frederick L. Bright of Ohio to be consul at Huddersfield, England, recognized Senator Dick and the agreement said to have been entered into between the Ohio senators and the state department by which the Ohioans are to have 26 consulships for Ohio men.

JOSEPH W. BAILEY, WHO REFUSED LEADERSHIP IN SENATE.

Senator Bailey of Texas, who recently refused to become the Democratic floor leader in the senate on the frank ground that he had not sufficient control of his temper, was formerly in the lower house, where he was the candidate of his party for the speakership. He has been in the upper branch since 1901. His reference to his temper was evidently inspired by an altercation which he once had with Senator Beveridge.

SENATE TAKES ACTION.

Adopts a Resolution of Sympathy on the Death of Miss Anthony.

Albany, March 14. Just before the senate adjourned the following concurrent resolution was adopted on motion of Senator Armstrong:

"Whereas, At her residence in the city of Rochester at an early hour this morning, the career of Miss Susan B. Anthony came to a close, and

"Whereas, Because of the distinguished character of her services, during the 86 years of her life, she had become one of the most famous and remarkable women of her time; and

"Whereas, Because of her unceasing labor, undaunted courage and unselfish devotion to many philanthropic purposes and the cause of equal political rights for women, her death creates a loss which will be mourned not alone in this country but throughout the world; therefore,

"Resolved (if the assembly concur), That the sympathy of the people of the state be extended to her family in their bereavement and that a copy hereof be transmitted to her sister, Miss Mary S. Anthony at Rochester, N. Y."

Speakers at Miss Anthony's Funeral.

Rochester, March 14.—The speakers at the funeral of Miss Susan B. Anthony, which will be held at 2 o'clock Thursday afternoon at the Central Presbyterian church, will be Dr. C. C. Albertson, pastor of the church; Rev. William C. Gannett, Miss Anthony's pastor; William Lloyd Garrison of Boston; Mrs. Carrie Chapman Catt of New York, who succeeded Miss Anthony as president of the National Suffrage association, and Rev. Anna Shaw. The body will lie in state for three hours prior to the funeral. Young women from the University of Rochester will act as pall bearers.

An avalanche of telegrams of condolence from all over the country were received.

Accused Russian Immigrant Released.

New York, March 14.—Felix Gaidsis, a Russian who was arrested at the request of the secret police of St. Petersburg upon his landing here recently, was set free and allowed to enter the United States. He was charged by the Russian authorities with embezzlement. Gaidsis, however, claimed that the money was a prize and that he was really wanted as a political prisoner. His case was first passed on by the immigration authorities, who refused to send him back to Russia and released him. St. Petersburg police then arrested Gaidsis and took the case to the United States courts.

Sealed Presentment in Hearst Case.

New York, March 14.—The federal grand jury which has been investigating the charges of William R. Hearst against state officers for alleged rebating between the so-called sugar trust and the trunk line railways running to the westward out of New York city was discharged. It is understood that the jury will present a sealed presentment with its report. The special federal grand jury, which will be sworn today, will continue the investigation.

REV. GEORGE W. RULAND.

Restored to Health by Vinol and Strongly Endorses it.

Prominent men from all parts of the country, are endorsing Vinol, and strong testimonial letters from four ministers of the gospel and several physicians have been received within a week. Such unsolicited testimony as this is the best proof of merit any medicine can have.

The Rev. George W. Ruland, of Keene, N. H., writes: "I have used your cod liver oil preparation, Vinol, as a tonic, and I do not believe there is any other medicine that can equal it. It built me up and strengthened me when run down and overworked. Vinol has done for me more than was claimed for it."

"We honestly believe there is no other remedy or cod liver oil preparation known to medicine that has the healing, strengthening power which Vinol has, and if it fails to create strength and health for run-down, debilitated people, old people, weak, sickly women and children, nursing mothers, and after a severe sickness, or if it fails to cure a hacking cough, chronic cold, throat or bronchial trouble, or to make those who are too thin fat, rosy and healthy, we will return every cent paid us for it.

Is there a sick, ailing or aged person in Wellsboro who can afford to ignore this generous offer?"

BLATCHLEY & CAMPBELL,
Druggists.

Dogs Can Bark With Impunity.

Human beings cannot. The distressed lungs must be relieved, the cough arrested, or the whole breathing apparatus goes to ruin. Remember this, and that Hale's Honey of Horehound and Tar will quiet any cough and remove all Pulmonary irritation. Sold by all druggists.

Pike's Toothache Drops cure in one minute.

Do the right thing if you have Nasal catarrh. Get Ely's Cream Balm at once. Don't touch the catarrh powders and snuffs, for they contain cocaine. Ely's Cream Balm releases the secretitions that inflame the nasal passages and the throat, whereas common "remedies" made with mercury merely drive them out and leave you no better than you were. In a word, Ely's Cream Balm is a real cure, not a delusion. All druggists, 50c., or mailed by Ely Bros., 56 Warren Street, New York.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure. Doan's Regulets act gently and cure constipation. 25 cents. Ask your druggist.

"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

Never can tell when you'll mash a finger or suffer a cut, bruise, burn or scald. Be prepared. Dr. Thomas' Eclectric Oil instantly relieves the pain—quickly cures the wound.

SUMMARY OF THE NEWS.

Short Items From Various Parts of the World.

Record of Many Happenings Condensed and Put in Small Space and Arranged With Special Regard For the Convenience of the Reader Who Has Little Time to Spare.

It is evident from the czar's ukase that the Russian government will have a firm check on legislation by the new parliament.

Andrew Hamilton reached New York from Paris and surprised his friends and foes alike by his unexpected appearance.

Crew of the schooner Mary Manning, picked up by British steamer and taken to Boston, clung till hours to a deckhouse roof.

Alton B. Parker and Charles Andrews, former chief judges of the court of appeals, were proposed as a commission to investigate the state banking department.

The alleged overloading of a freight elevator in a barn of the Jacob Dold Packing company at Buffalo resulted in the death of one man and the serious injury of three others.

Friday.

Berthe Claiche named 50 policemen to the authorities who she said took tribute from the women of the Tenderloin. She gave money to four.

Princess Ena, King Alfonso's future bride, was received into the Catholic church in the royal palace of Miramar, at San Sebastian, Spain, Thursday.

Financiers discuss the report that Andrew Hamilton had been recalled by the insurance companies in order to aid in clearing the air of the existing scandals.

President Roosevelt signed the joint resolution providing for investigation of railroad discriminations and oil and coal monopolies, and told congress further legislation was necessary to make it effective.

Saturday.

J. Ogden Armour, writing in the Saturday Evening Post, denies that diseased animals or tainted carcasses are ever sold to the public for food by the packers.

The Marchioness of Corsini, formerly Princess Bonaparte, was killed by the overturning of an automobile in the suburbs of Rome while riding with her husband, master of horse of King Victor Emmanuel.

After deliberating 21 hours the jury in the $200,000 libel suit at Buffalo of the World's Dispensary Medical association against the Curtis Publishing company agreed upon a verdict for the plaintiff of $15,000.

In an engagement near Jolo 15 enlisted men were killed and five wounded, and the naval contingent had 32 casualties. The Moros lost 400 men killed. The constabulary had three men killed and 14 wounded.

Monday.

Eugene Richter, the old opponent of Bismarck in the reichstag, passes away in Berlin.

A new tube railway has been opened in London linking Waterloo station with the great railways of the west and north.

Edward J. Morgan, an actor, who gained fame as John Storm in "The Christian," was found dead by suffocation in his room in the Bellecliare hotel, New York.

St. Petersburg discusses favorably, and Count Witte indorses the scheme for a tunnel under Bering strait, and an all-rail route from the United States to Europe.

Two judges of the circuit court at Cincinnati testified before the senate committee that George B. Cox, former Republican leader, had sought to influence their judgment in a suit brought by the city.

Tuesday.

Every element of the anthracite coal mining trade the operators has been finally designed and a great strike is expected on or about April 1.

Under a new rate scheme for the A. O. U. W. which goes into effect April 1 dues will be largely increased to avoid the threatened bankruptcy of the order in New York state.

Andrew Carnegie promised $15,000 annually and as much more as may be required for a term of years to the Simplified Spelling Board, which is advocating spelling reform.

Fredonia Green was arrested at St. Petersburg on the eve of the inquiry demanded by him into the scandal involved in the charge that his labor organization was subsidized by the government.

Wednesday.

An inference drawn in Paris from the postponement of the Castellane hearing for separation is that the countess now intends to apply for an absolute divorce.

Frederick R. Green, cashier of the wrecked Fredonia National bank, pleaded guilty at Buffalo to four counts in an indictment of 35 counts and was sentenced to six years' imprisonment.

In the French chamber of deputies it was voted to appropriate $100,000 for the relief of the victims of the mine disaster at Courrieres, and the miners' association voted $10,000 more.

United States supreme court decide the 50-year traction case in favor of Chicago. The decision leaves the municipality in control of its thoroughfares, practically all franchises having expired.

Favorable Outlook at Algeciras.

Berlin, March 14.—The foreign office here says the outlook at Algeciras is so favorable that it is now considered impossible to break off the negotiations.

Don't let the baby suffer with eczema, sores or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All druggists sell it.

To ensure the eradication of eruptive complaints wash daily with Glenn's Sulphur Soap.

Hill's Hair and Whisker Dye, black or brown, 50c.
